Rezoning Procedures

Applicability. The rezoning process provides review of changes to the boundary of zoning districts (map amendment) that may be necessary to implement the comprehensive plan, to account for changed conditions in the general area, or to reflect a change in public policies with respect to future development. Application for a rezoning may be initiated by the property owner, the City Council, or the Planning Commission.

Review Criteria. A rezoning shall be reviewed according to the following criteria:

1. The application is consistent with the comprehensive plan, and any official plan or program developed under the guidance of that plan.
2. The application supports the character of the neighborhood, considering the design of streets, civic spaces, and other open spaces; the scale, pattern, and format of buildings; the zoning of property and intent of other zoning districts in the vicinity; and the compatibility, transitions, and integration of existing and potential future uses.
3. The suitability of the subject property for the uses to which it has been restricted.
4. The application furthers the intent of the proposed zoning district and the general purposes of these regulations.
5. The application demonstrates compliance with all substantive standards and guidance of the proposed zoning district; or, where no proposed development application is associated with the application, there is a likelihood of development that complies with all substantive standards can be demonstrated.
6. The ability of the City or other government agencies to provide any services, facilities or programs that may be necessary if the application is approved.
7. The effect of approval on surrounding property, including the likelihood that surrounding areas may be developed in accordance with current zoning or future plans.
8. The recommendations of professional staff or other reviews associated with the application.

Review Procedures. In addition to the general requirements in Table 2-1 and Section 2.01, the following requirements are specific to zoning map amendment applications.

1. Applications may be accompanied by one of the following complementary applications: a Site Plan, a Special Use Permit, or a Concept Plan of a similar nature to that required in Section 2.04 for Planned Developments.
2. Applications may be accompanied by any plat that is necessary for the project.
3. The City Council may recommend the application be returned to Planning Commission for further study or additional information at its next regular meeting. Failure by the Planning Commission to consider or revise its recommendation shall be considered a resubmission of its original recommendation.
4. The Planning Commission may recommend, or City Council may approve a lessor change than was proposed in the notice, whether in extent of property or project area, or in the scale, intensity, or other substantive standards for proposed project and zoning change.

Effect of Decision. Rezoning shall be approved by the City Council in the form of an ordinance. Approved changes shall be indicated on the Official Zoning Map by the Director within 30 days following approval. Any application that includes a required site plans or other similar applications

(except Concept Plans), may proceed to building permits after the effective date of the ordinance and upon satisfying all other conditions of the approval. If the applicant fails to obtain a building permit within one year of the effective date of the ordinance approving the change, the Director may schedule a hearing to reconsider and revert the zoning to the previous classification, subject to all procedures and criteria of the original change.

RE: 2629 S Oliver Ave Rezone Application

To Whom it May Concern:

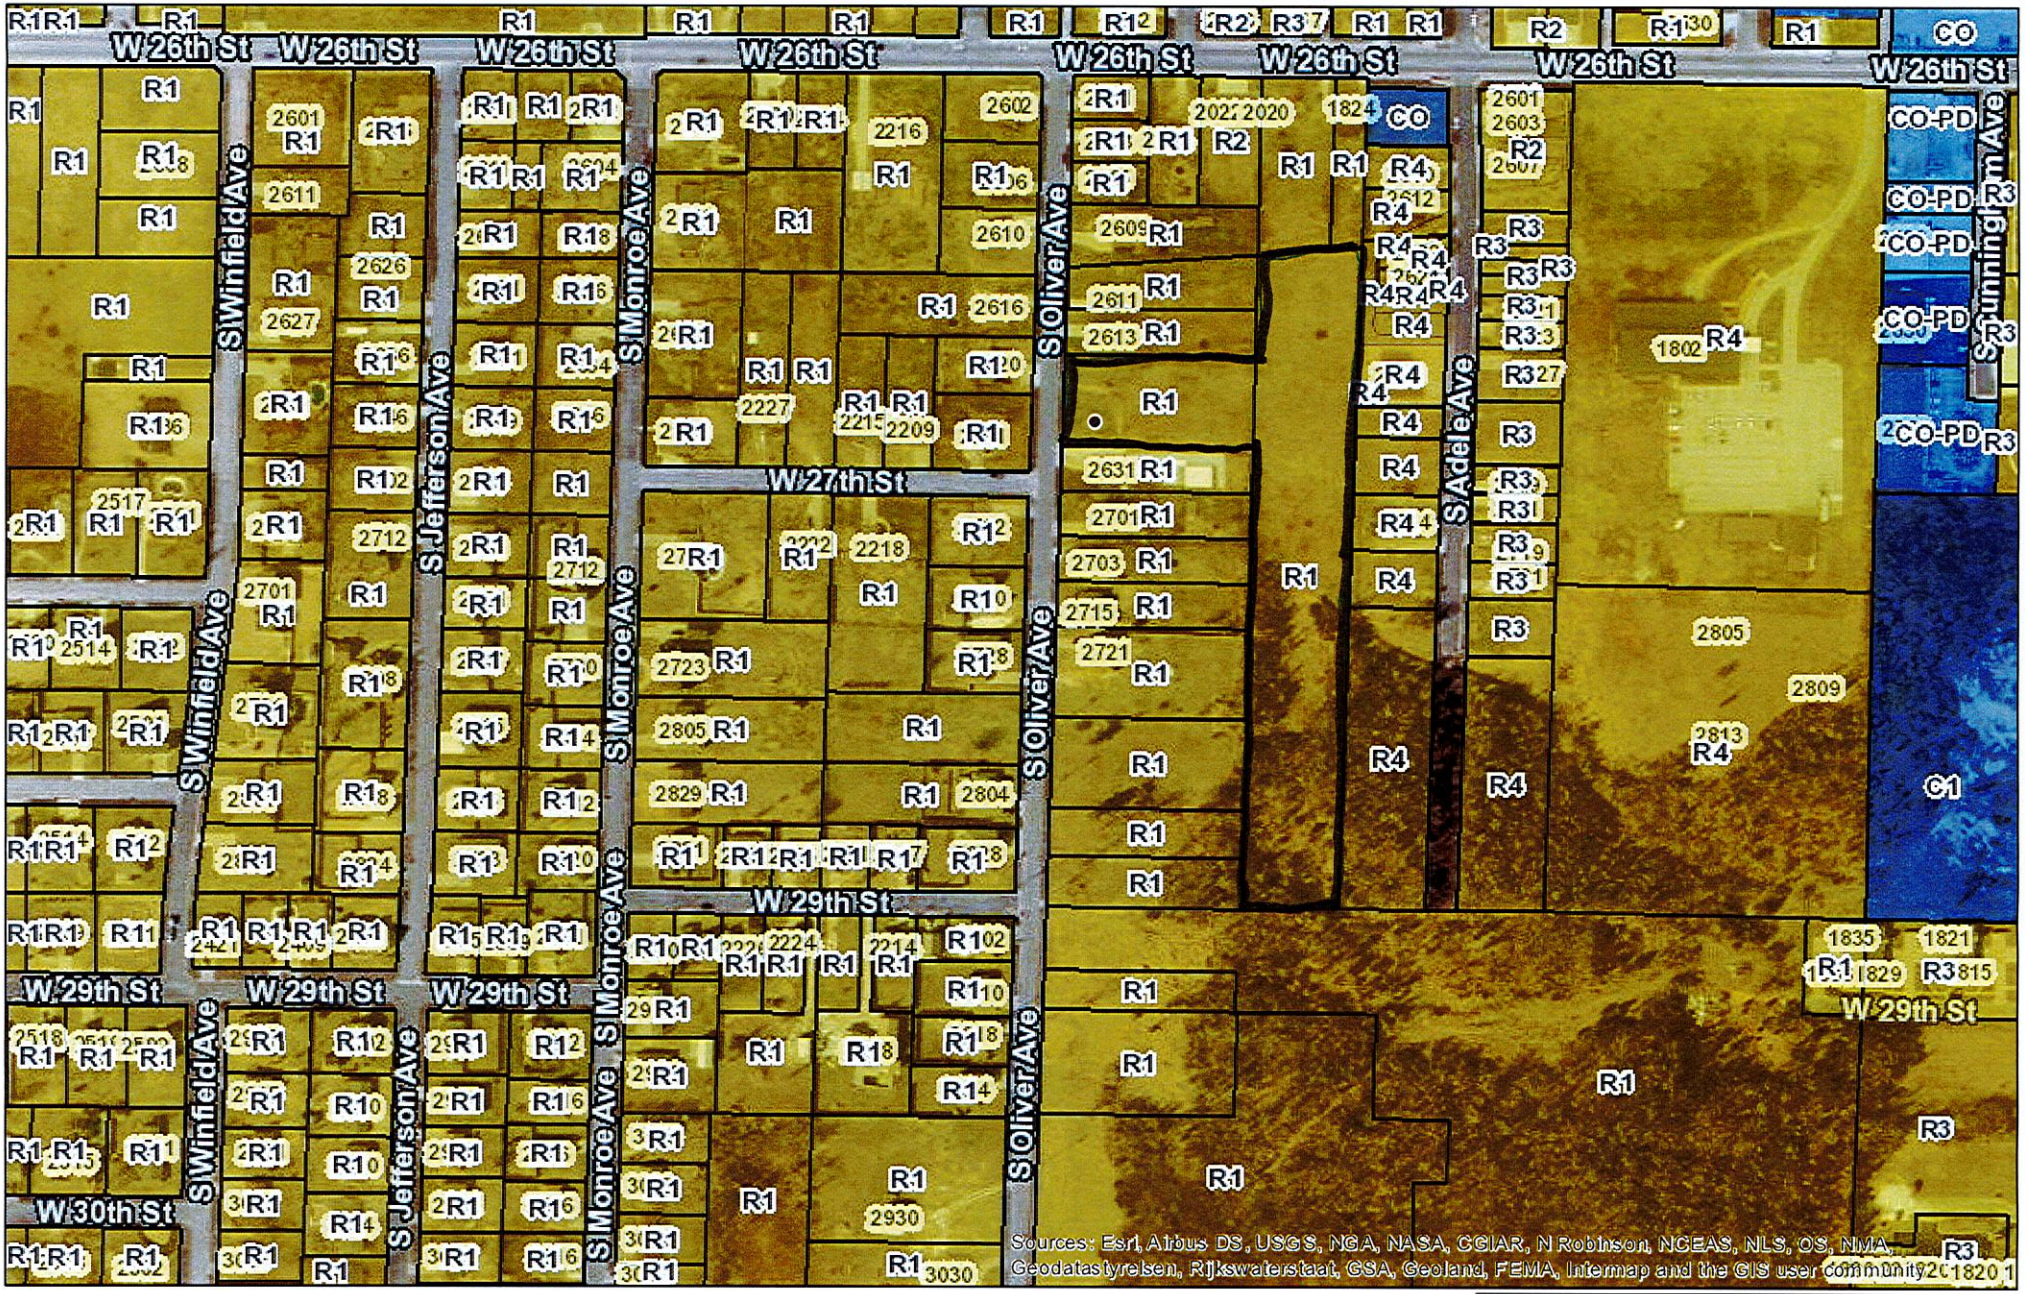

Schuber Mitchell Homes is seeking approval on a rezone request at 2629 S Oliver. They are requesting to rezone this, the property immediately East, and 2827 S Oliver to R4. Please refer to the attached application, exhibit, and legal descriptions for additional information.

Schuber Mitchell Homes is requesting the rezone to develop these properties to add more affordable single family home options. The impact of the proposed change should be good for the surrounding area as the requested change will allow the land to be developed to provide more variety of housing options for the Joplin community as well as create a good transition from the R1 residential zoning to the West and the R4 residential zoning to the East. The proposed zoning request should have negligible impacts to the existing traffic conditions and fire hazards, and provide two egresses on to Oliver St. This proposed zoning request will allow adequate housing to be developed in an area that has remained semi vacant since the tornado of 2011.

Should you require any additional information, please contact us.

Sincerely,

Katrina Smith, E.I.T.
Design Engineer

Case # 067-22 (Continued)

Oliver and Monroe, and children ride their bikes up and down the street safely. Many of these homes are forever homes and huge investments for these families. If you approve these INVESTORS' request for rezoning these properties to "mixed-density" you will be changing these lives and this neighborhood forever and will cause many people to lose equity in their homes. This would also impact the serene nature of our neighborhood. Traffic would increase dramatically and we would no longer have the peace of mind of knowing our neighbors and feeling safe in our homes.

Please don't allow the greed of developers to do this to our beautiful neighborhood. We have recently seen many apartment buildings and duplexes constructed west of Maiden Lane and North of 32nd St. The **density** of our area has been impacted greatly. Please don't allow this to encroach into our neighborhood any further than it already has.
