REVIEWED BY
Director of Public Works, Daniel Johnson; Director of Finance, Leslie Haase; City Attorney, Peter Edwards; Assistant City Manager, Tony Robyn; City Manager, Nicholas Edwards

SUMMARY
This Council Bill authorizes the City to approve a work authorization with Olsson in the not to exceed amount of Five Hundred Sixty-Eight Thousand Two Hundred Fifty and 00/100 dollars ($568,250.00) for professional engineering services for the Pennsylvania Avenue Viaduct Removal project.

BACKGROUND
In April 2024, the voters passed the Renewal of the Capital Improvement Sales Tax Program for an additional 12 years. Two of the projects included in the program were the removal of the Pennsylvania Avenue Viaduct, and the improvement of the Old Willow Branch Storm Sewer System.

The Missouri Department of Transportation (MoDOT) has plans to reconstruct Route 66 / 7th Street in Joplin from Schifferdecker Avenue to Range Line Road. This project is currently in the design phase, with a tentative bid letting scheduled for the Spring of 2025.

A large portion of the Old Willow Branch Storm Sewer improvement project is envisioned to go under 7th Street, from Moffett Avenue to Pennsylvania Avenue, and then turn north running under Pennsylvania Avenue to tie into the existing drainage channel. The installation of the new RCB Storm Sewer System is planned to be incorporated into MoDOT's 7th Street Reconstruction project.

This work authorization includes the development of construction plans and specifications for the new roadway and storm system improvements on Pennsylvania Avenue from 5th Street to 7th Street. Also included is the demolition of the Pennsylvania Avenue Viaduct to accommodate the new RCB extension to 7th Street and the channel improvements between Kentucky and Pennsylvania Avenue.

Olsson was selected from the City's list of on-call consultants for this type or work. The fees submitted by Olsson for this work have been reviewed by City staff and found to be within industry standards.

FUNDING SOURCE

This item is included in the FY 2025 Budget in the Capital Improvement Sales Tax Fund.

RECOMMENDATION

Staff recommends approval of Council Bill 2024-153, Work Authorization OLS-WIL-01 with Olsson for professional engineering services for the Pennsylvania Avenue Viaduct Removal project in the not to exceed amount of Five Hundred Sixty-Eight Thousand Two Hundred Fifty and 00/100 dollars ($568,250.00) on an emergency basis, in that said ordinance provides for public improvements and is considered to be an emergency per section 2.12(6) of the HOME RULE CHARTER of the City of Joplin, Missouri, and as such, this ordinance shall become effective immediately upon its passage. Furthermore, approval of this council bill will allow the consultant to perform this work without causing unnecessary delays to the proposed MoDOT project on 7th Street.
