Council Bill 2022-153 Work Authorization for the Wastewater Collection System Rehabilitation Toolbox Project

MEETING DATE
November 21, 2022

ORIGINATING DEPT
Public Works / Engineering

ATTACHMENTS
CB 2022-153 Ordinance; Work Authorization AMA-OC22-020

REVIEWED BY
Director of Public Works – Daniel Johnson, Director of Finance – Leslie Haase, City Attorney – Peter C. Edwards, Assistant City Manager – Tony Robyn, City Manager – Nicholas Edwards

SUMMARY
This Council Bill approves a work authorization with Allgeier, Martin and Associates, Inc. (AMA), for the Wastewater Collection System Rehabilitation Toolbox Project in the not to exceed amount of Ninety-Six Thousand Nine Hundred and 00/100 Dollars ($96,900.00).

BACKGROUND
Since 2013, AMA has played a vital role in the success of the City's annual evaluation and rehabilitation program, which has improved the reliability of the sanitary sewer collection system. On May 16, 2022, Council approved the previous Work Authorization (WA) with AMA for supporting City staff in the planning and construction administration of Ace Pipe Cleaning's most recent work orders. AMA's tasks included assisting City staff with planning and managing collection system rehabilitation work, developing maps of the same, along with supplying information to City staff for periodic reports to the Missouri Department of Natural Resources regarding renewal of the sewer system and the removal of excessive inflow and infiltration (I&I) within the collection system. The work associated with AMA's previous WA and Ace's most recent work orders is essentially complete, leading City staff to seek to renew AMA's technical support as the City continues to renew its sanitary sewer system Under this new WA, AMA will provide the same types of technical services mentioned above, in support of renewing the City's sanitary sewer collection system. AMA was selected as the on-call engineering firm most qualified to provide these professional engineering services. The consultant's fees are within industry standards for design and construction administration services.

FUNDING SOURCE
These payments are included in the FY 2022-2023 budget of the Wastewater fund.

RECOMMENDATION
Staff recommends adoption of this Council Bill on first reading.
