City of **JOPLIN** City Council Agenda Item

Requested Council Meeting Date: March 21, 2016
Council Bill No. 2016-111

Item: Work Authorization AMA-DR2AP3-4 with Allgeier, Martin & Associates Inc. for Design and Construction Management for Sanitary Sewers in the Recovery Area

Originating Department: Public Works – Engineering

Attachments: 1) Agreement-Work Authorization
2) Council Bill No. 2016-111
3) Map "Exhibit A – Future Sanitary Sewer Projects"
4) Map "Exhibit B – Overall Map"

Department Head: Nicholas A. Heatherly
Finance Department: Leslie Haase
City Attorney: Peter C. Edwards
City Manager: Samuel L. Anselm

Recommended Action: Approval of Work Authorization AMA-DR2AP3-4 with Allgeier, Martin & Associates Inc. in the not to exceed the amount of $1,334,000.00 for Design and Construction Management of Sanitary Sewers in the Recovery Area.

Background: In August of 2014, Council Bill 2014-157 was approved authorizing the execution of a contract with the firm of Allgeier, Martin & Associates, Inc., for the purpose of providing professional engineering services related to the design and construction management of all sanitary sewer repairs, reconstruction and replacement within the recovery zone. Funding for this contract was identified as coming from the Department of Housing and Urban Development (HUD) as part of the Community Development Block Grant – Disaster Recovery – Round 2 funding appropriation received by the City of Joplin in May of 2013.
This fourth work authorization with Allgeier, Martin & Associates, Inc., is for the design, bidding, and construction services for the next phase of reconstruction or replacement of the sanitary sewer system within the recovery zone, and for design, bidding, and construction services of several interceptor sewer replacement projects.

Discussion: With HUD approval of the latest Partial Action Plan a total of approximately $20.5 million will have been approved for Sanitary Sewer Design and Construction. As was outlined in Council Bill 2014-157, additional work authorizations would be forth coming as the funding became available – this Council Bill is the fourth work authorization for Allgeier, Martin & Associates, Inc. and is for a not-to-exceed amount of $1,334,000.00. To date, approximately 60% ($12 million) of the $20.5 million has been contracted for design and construction. The attached map "Exhibit A – Future Sanitary Sewer Projects" shows the projects encompassed by this Work Authorization, whose construction costs are estimated at approximately $5,850,000. Lastly, the attached map "Exhibit B – Overall Map" represents all the sanitary sewer projects that will have been funded with Disaster Recovery funds.

Recommendation: City staff recommends that approval of Work Authorization AMA-DR2AP3-4 with Allgeier Martin & Associates Inc. for the not to exceed amount of $1,334,000.00 for Design and Construction Management of Sanitary Sewers in the Recovery Area be approved on an emergency basis per Section 2.12 (6) of the Joplin City Charter.
