REVIEWED BY
Director of Public Works, Daniel Johnson; Director of Finance, Leslie Haase; City Attorney, Peter Edwards; Assistant City Manager, Tony Robyn; City Manager, Nicholas Edwards

SUMMARY
This Council Bill will approve an agreement between the City of Joplin and G&G Construction Company, Inc. for the Turkey Creek WWTP Trickling Filter Drive Renovation in the amount of Seven Hundred Twenty-Nine Thousand and 00/100 DOLLARS ($729,000.00).

BACKGROUND
In 2023, City staff identified infrastructure repairs and replacements needed during the annual WWTP evaluation process. The trickling filter tower media was placed on the list for replacement due to age and the critical role it serves in the treatment process. During the budget process in Fiscal Year 2025, the replacement of the media was approved, the design was completed, and the project is currently under construction and is fifty percent (50%) completed. This agreement is for replacement of the drive mechanisms and electrical components that control the flow of water to the media currently being replaced and was included in the Fiscal Year 2026 budget. This will complete the renovation of the trickling filter towers.

In accordance with the City of Joplin's procurement policies, a request for proposals for the for the Turkey Creek WWTP Trickling Filter Drive Renovation was advertised in Joplin Globe on November 8th, 2025, and bids were received by the City on December 2, 2025. A total of 2 bids were received, with G&G Construction Company, Inc. being the lowest responsive bidder.

FUNDING SOURCE
This is included in the FY 2026 Budget ($1,100,000.00) in the Sanitary Sewer Fund.

RECOMMENDATION
Staff recommend approval of this Council Bill on first reading.
