STAFF ANALYSIS

CONSISTENT WITH DEVELOPMENT POLICIES OF THE COMPREHENSIVE PLAN?

Although the Future Land Use map shows this property as appropriate for single-family residential, there are existing multi-family residential districts and apartments nearby towards the north and east of the property. The requested multi-family zoning district is not any different than what currently exists in this neighborhood.

THE SUITABILITY OF THE SUBJECT PROPERTY FOR THE USES TO WHICH IT HAS BEEN RESTRICTED

The existing residential single-family residential zoning does not permit apartments and multi-family residential units.

THE EXTENT THAT THE ZONING CHANGE WILL DETRIMENTALLY AFFECT NEARBY PROPERTY

Rezoning this property to a multi-family residential district will have the greatest impact on nearby single-family homes. The current density requirements for single-family residential districts permits one living unit per lot for a total of two living units (one living unit or home on each lot). The change to an apartment house district will allow a density of one living unit per 2,500 sq. feet of lot space for a total of 5 living units.

DISCUSSION

The applicant (God's Resort) has made a significant investment into this neighborhood over the years. This neighborhood was once known for high crime rates and deteriorated housing. But, that trend has changed, and the neighborhood has seen an improvement in the crime rates and the preservation of property values because of God's Resort investment and presence in the neighborhood. God's Resort currently owns 30 homes/apartments and a community center that serves the whole neighborhood. Their transitional housing ministry has a proven track record of improving people's lives in the neighborhood. Staff believes their investment and construction of apartments will yield similar results. Even though single-family property values can sometimes be negatively impacted by adjacent higher density residential developments, the opposite can occur in deteriorating residential neighborhoods as we have already seen in this neighborhood.

Staff recommends approval of Case 015-19.

God's Resort Rezoning Application Appeal

God's Resort is a relational transitional housing ministry that seeks to come alongside people who desire a new direction in life and just need lots of love, prayer, new friends and supportive resources. We now consist of 30 homes/apartments and a community center in and around Pearl St from 14th to 18th streets. Our goal is clean, affordable and dignified homes where people can find the love and support that makes a home and community worth living in. We want to help people achieve stability and become self-respecting and productive citizens. God's Resort seeks to be a model for transitional housing in Joplin, nationally and globally.

When God's Resort was established, the area was known as the "last resort", because if you couldn't make it there, you were going to be on the street or in a mission. In 2007, when God's Resort was established, KSN did a news story on that beginning. Cpl. Chuck Niess was interviewed and said these words, *"The central part of Joplin is a high crime area, more so than other parts of town and the 1400 block of Pearl is a high for service area (averaging 90+ calls per month)...This kind of community policing can be contagious and hopefully spread to other high crime areas."* We quickly realized, that the neighborhood effects God's Resort and ultimately God's Resort would effect the wider neighborhood, which it has.

A lot has changed and that is because of the great partnership with have enjoyed with the City, our generous supporters, and the blessing of God. Our future plans include finishing the rehabilitation of the property at 1510 S. Pearl. City records will show that until recently, the structure at that location was a condemned property that housed vagrants and was a continual drain on city resources as police were called and monitoring activity there regularly. A local friend of the God's Resort ministry bought the property from an out of state owner and donated it to the ministry. We quickly and gratefully took position and applied for a city permit to demolish it, which was accomplished in January of 2018. We have recently built two new five plex apartment buildings debt free, in the 1400 block of Pearl, thanks to generous donors. We are presently, in the planning stages to build another five plex on the 1510 S. Pearl location across the street from our Community Center at 1501 S. Pearl and next to our community pocket park we established in the fall of 2015. Our need is for this lot to be rezoned to accommodate this structure and the continued betterment of this once forgotten neighborhood.

We again appreciate so much this great city and the City of Joplin staff and administration that has worked with us to accomplish so much for so many and would appreciate your help in this matter.
