| *OLD BUSINESS*: | None |
| *NEW BUSINESS*: | Steven handed out a map to show the board what trees they will be removing on Main Street. (Attached) He told the board that the RFP for tree removal will be opened on October 15th. He mentioned they are hoping to remove 9 trees on Main Street due to the trees root system tearing up the sidewalk. These trees are the first of many that will need to be removed but we just don't have the money to do them all at once. Paul told to board that as the board we will need to review what trees we would suggest replacing the Bradford Pears with once they are removed. Sam suggest having a variety of trees instead of just planting the same kind of tree down |

Main Street. Sam made a motion to move forward with the 9 trees being removed and to hold off on make a motion on tree species until the board can discuss options, 2nd by Lauren Copple, all yea. Sam told the board to email the group of five trees off the list (Attached) that they would like to see be planted down Main Street and if they have two other trees not on the list to email those also. Once everyone sends in the tree request, we will make a decision as a board what will be best fit for the area.

*REPORTS AND COMMUNICATIONS:* None
