Airport Manager:	Steve Stockam	Date:
Department Head:	Nick Heatherly	Date:
Finance Department:	Leslie Haase	Date:
City Attorney:	Peter Edwards	Date:
City Manager:	Sam Anslem	Date:

Recommended Action: AN ORDINANCE authorizing the City Manager or his designee to enter into an Agreement by and between the City of Joplin and Crawford, Murphy & Tilly, INC. for Engineering Services for the rehabilitation of the General Aviation Ramp at the Joplin Regional Airport on an emergency basis.

Summary: On February 26, 2015 the Missouri Department of Transportation (MoDOT) issued the Joplin Regional Airport a Tentative Allocation (TA) letter which is the initiation of work for a proposed project. MoDOT has committed to the project for the Airport to rehabilitate the GA apron. This project will involve the repair of the existing substructure and a new overlay and markings. Per MoDOT schedule the project must be designed and bids received by July 1, 2015.

CMT was selected by formal process earlier this year to serve as the Airport Engineer for the next five (5) years. CMT has developed a Scope of Work and a Consulting Contract for the project. After review by the MoDOT both were approved.

This agreement is an amendment to the original design contract and will include construction observation, contract administration, closeout services, and Airport Diagram updates. Grant funded projects do not allow us to operate on estimates and we could not know what the scope of the observation services were until the project had been designed and approved by MoDOT.

Discussion: The MoDOT has issued a Grant for the project and all the cost for this agreement will be paid from the Grant based on a 90/10 State/Local share. This original contract involving the design of the Rehab Project was for $89,842 with this amendment adding and additional $89,835. The Local Share will be approximately $9,000.

Recommendation: Staff recommends approval of the agreement by and between the City of Joplin and CMT for the construction observation services for the rehabilitation of the General Aviation Ramp at the Joplin Regional Airport on an emergency basis to meet the construction timeline.
