SUMMARY
This Council Bill authorizes the City of Joplin to enter into an agreement with KCI Construction Company in the amount of One Hundred Twenty-Two Thousand Two Hundred Ninety and 00/100 dollars ($122,290.00) for construction of the Newman Road Bridge Deck Repairs project.

BACKGROUND
In April 2024, the voters passed the Renewal of the Capital Improvement Sales Tax Program for an additional 12 years. One of the projects included in the program was the Newman Road: Turkey Creek Bridge Rehab project, with a proposed total cost of $4,950,000.00, to provide an extensive overhaul or replacement of the bridge deck at a minimum in the future.

The Newman Road Bridge Deck Repairs project focuses on repairing deteriorated portions of the Newman Road bridge deck only, extending the useful life of the existing bridge deck until the future bridge rehab project occurs. In accordance with the City of Joplin's procurement policies, a request for bid proposal for the construction of the Newman Road Bridge Deck Repairs project was advertised in the Joplin Globe on January 31st, 2026, and bids were received by the City on February 25th, 2026. Four bids were received, with KCI Construction Company selected as the lowest responsive bidder. The bid was below the engineer's estimate. The Notice to Proceed will be issued once signed contract documents have been received and executed. This project was designed by city staff. Construction oversight and project management will be provided by city staff as well.

This is a summary of the anticipated total expenditures for this item:
