Company History, Qualifications, Staffing and Local Key Employees

GFL Company History and Qualifications

GFL Environmental Inc was incorporated in Ontario, Canada on December 19, 2007 by Founder and Chief Executive Officer Patrick Dovigi.

GFL has grown to become the fourth largest diversified environmental services company in North America, as measured by revenue and North American operating footprint. We have secured our significant footprint and leadership position in the environmental solutions market through continual innovation, strategic and targeted growth, an inherent commitment to sustainability and investing in our employees and communities.

Recognized by our signature fleet of bright green trucks, GFL offers a robust, integrated and sophisticated approach to meeting all of our customers' environmental service needs, including the increasing demand for sustainable solutions.

GFL is led by a team of highly experienced and entrepreneurial executives. Patrick Dovigi, our Founder, Chairman, President and CEO, has led our operations since inception in 2007. Mr. Dovigi and our senior leadership team have instilled a results-oriented, entrepreneurial culture that emphasizes operational excellence, the importance of safety for our employees and creating sustainable solutions that allow our customers and the communities we serve to be "Green For Life."

We have adopted a decentralized operating structure, giving operational oversight to our regional business leaders. We believe this model is advantageous given the regional and fragmented nature of the markets in which we operate and the relationship-based approach to our acquisition strategy. Furthermore, we believe that our operating structure provides our employees with a greater sense of ownership, which drives the efficiency and profitability of our business and provides us insight into the sustainable solutions and services that matter most to our customers.

Solid Waste collection, processing and disposal services

Across all operations GFL has more than 20,000 employees **and XX employees in the Joplin market.** We maintain more than 250 collection operations, 170 owned or managed solid waste transfer stations, 90 owned or managed landfills, 35 MRFs and 20 organic facilities. Our broad network of solid waste facilities underpins our ability to compete in markets with different disposal dynamics and profitably manage the solid waste volumes that we control. In some markets, we create and maintain vertically integrated operations through which we manage our customers' waste streams from collection to transfer to disposal. By internalizing waste in those markets where we have vertically integrated operations, we are able to deliver high quality customer service.

Our collection services are provided to customers under municipal collection contracts, residential subscription agreements and commercial customer service agreements. **Our large and diverse customer base includes the City of Joplin, where we have been the solid waste service provider for city facilities since 20XX.**

Local Management to Oversee City of Joplin Facilities Service

In the spirit of accountability and accessibility, appropriate District staff will have access to the following GFL personnel, who will be **empowered to address and resolve any collection, maintenance, operational, billing or other issues** reported by District staff:

Ben Seiferman (Kansas City) – Regional Vice President
Jason Fetters (Kansas City) – Regional Sales Manager
John Burke (Springfield, MO) – Area Sales Manager
Ashley Wheeler (Joplin, MO) – Facility Manager
Jenny King (Raymore) – Customer Service and Billing Manager
Michael Loveless (Joplin, MO) – Operations Supervisor
Andy Dowdy (Joplin, MO) – Operations Supervisor
Tom Coffman (Mission) – Municipal Contracts Manager

GFL's Joplin hauling and transfer operations currently employs 40 staff at 3700 W. 7th Street.

During the future contract term, **Ashley Wheeler (Phone #, email address)** would continue to be the City's primary contact.

To Whom it May Concern:

It is my pleasure to recommend GFL Environmental as a top-notch trash service. The City of Greenfield has enjoyed a pleasant and professional partnership with GFL since January 2015. Throughout this time, we have had very good route drivers who do an excellent job of servicing all the city's residential carts in a timely manner. Since day 1, GFL's drivers have made it a point to check in with us at City Hall twice on our service days. First thing in the morning to see if there are any issues that need to be addressed and again at the end of the day before they leave town to make sure there are no issues. That is great service!

Our account manager Max Murray has always kept in touch with us throughout the years either by phone call, email or stopping by our office to see how things are going. If we ever need a favor, Max is always a phone call away and acts immediately upon our request. We could not ask for a better account manager. Max feels like family. The support staff at GFL's Springfield plant are always helpful too. We can count on them to always provide the best service possible and are quick to respond to our phone calls and emails.

There are many companies out there that provide trash service and the choice is certainly yours to make but without a doubt the City of Greenfield can confidently say that GFL Environmental would be the best choice as your trash provider.

Sincerely,

Mark Davis

RE: WCA letter of recommendation

To whom it may concern:

WCA has provided residential trash service for the City of Sarcoxie since 2009. We continue to be extremely satisfied with all aspects of their service and consider them to be one of our most valuable and reliable vendors.

Their equipment is first rate. Poly carts are uniform, appear to age well, and are quick to be replaced if damaged. WCA allows the City to keep an inventory of poly carts which enables us to react quickly to get carts to new residents or to satisfy requests for extra carts. Their trucks are new, well-marked with flashing lights and decals, and ultra-quiet.

Our experience with their staff has been very satisfying. There are less missed trash pickups and upset customers when drivers stay on the same routes over the long term. WCA shares this belief. Jennifer, WCA's local driver rep, has been running the Sarcoxie route for at least the last four years. She not only does a great job she has become friends with our staff at City Hall as well as folks around the city. She has even been known to leave her truck to pull poly carts down to the street when people occasionally forget its trash day.

Resolution of occasional resident complaints is just a part of trash service. One thing we enjoy in our dealings with WCA is the ethics and tools they bring to such issues. Jennifer is great about trying to work through issues with trash pickups that are outside of the norm. She also does a good job communicating persistent issues to us so we can advise the resident of the issue. Trucks are equipped with cameras to provide proof of issues she can't take care of. This can range from poly carts not being at the curb or improper items in carts to low hanging tree limbs. Most issues are quickly addressed at the driver / city collector level. For the ultra-rare bigger issues, the management team at WCA is quick to respond to calls or emails.

I just can't say enough about WCA and the service they provide for our community. I highly recommend them for residential trash service.

Respectfully,

Don Triplett
