REVIEWED BY
Department Head: Michelle Ducre; Finance Director: Leslie Haase; City Attorney: Peter Edwards; City Manager: Nick Edwards

SUMMARY
This Council Bill approves the purchase of property, casualty, and liability insurance from various providers for the City of Joplin, effective April 7, 2026 at midnight.

BACKGROUND
In January 2026, our Insurance Broker of Record, Higginbotham went to the insurance market to obtain renewal bids for the City's liability insurance policies: property, general liability, employee benefits liability, law enforcement, public entity management, public entity employment related practices, auto, auto physical damage, umbrella excess liability, medical facility professional liability, fine arts, workers' compensation, crime, cyber, drone and aviation liability. Higginbotham reviewed the quotes and prepared a renewal proposal for Council consideration and approval. Policies will be renewed on an annual basis.

In 2025, our total insurance premiums were $1,639,812 and in 2026 the premiums are $1,760,301. The premium summary is attached for itemized listing of premiums for both years.

FUNDING SOURCE
These premiums are included in the FY 2025-26 budget in the Liability Insurance Fund.

RECOMMENDATION
Staff recommends approval of this council bill on first reading to ensure that coverage is in place before the April 7th renewal deadline.

CO-INSURANCE PENALTY

A policy may contain a co-insurance clause requiring that the limit of coverage be a minimum percentage (usually 80%) of the insurable value of your property. If the amount of insurance carried is less than what is required by this clause, any claim payment may be reduced by the same percentage as the deficiency.

Below is an example of how the Co-Insurance Clause works:

Assuming

- 80% Co-Insurance Clause
- $1,000,000 Insurable Value at the time of loss
- $400,000 Insurance Carried
- $800,000 Insurance Required (80% of $1,000,000)
- $100,000 Loss
- $10,000 Deductible

$$\left(\frac{\text{Insurance Carried}}{\text{Insurance Required}} \times \text{Amount of Loss}\right) - \text{Less Deductible} = \text{Amount Recovered}$$

$$\left[\frac{\$400{,}000}{\$800{,}000} \times \$100{,}000\right] = \$50{,}000 - \$10{,}000 = \$40{,}000$$

Result

- Amount Recovered before Deductible = $50,000
- Amount Recovered after Deductible = $40,000

*Coinsurance is a responsibility of the insured; Insureds must request appropriate property limits to value, be it Replacement Cost or Actual Cash Value. Failure to carry appropriate property limits could result in a coinsurance penalty, in the event of a claim.

Commercial Auto coverage premium summary

Automobile Composite Rating

In order to provide our insureds better service and administrative efficiency, Travelers Public Sector Services is pleased to provide the following process for handling mid-term automobile change requests. All requests will be managed in accordance with the Composite Rate Application outlined below. The insured should continue to submit all change requests to their agent for accurate record keeping and claims verification purposes. Particular attention should be paid to Item 5, which specifies the types of automobiles that will continue to require reporting to the Company.

Composite Rate Application

1. If your policy includes the coverage for which a composite rate is designated in the table below then the premium for that coverage is composite rated. Automobile Liability is rated on a "per unit" basis and Automobile Physical Damage is rated on the basis of the original cost new of the autos. **The composite rates reflect premium charges for any applicable miscellaneous auto coverages, with the exception of Garagekeepers Legal Liability**.
2. The composite rates for Automobile Liability and Physical Damage are the rates applicable at the inception of the policy. Based on the information provided for this proposal and as of the date of this proposal, these rates are as follows:

	LIABILITY	COMPREHENSIVE	COLLISION
Option 1	$494	0.084	0.079

3. The premium charged at inception is the estimated annual premium based on the number of units and total original cost new for all covered autos on file with the company at inception. The insured is to submit a current schedule of owned automobiles as of the expiration of the policy and the total earned premium will be computed on the basis of the average net change in units and their corresponding original cost new for the policy term.
4. All autos added will carry the same Liability limits and Physical Damage deductibles issued at policy inception for autos of the same type.
5. Any new auto requiring valuation other than actual cash value must be reported within 30 days of acquisition. These autos will be added to the policy automobile schedule mid-term and a final premium will be determined at policy expiration.
