Public Works – Engineering

ATTACHMENTS
CB2025-117 Ordinance; Work Authorization AMA-OC-025-005

REVIEWED BY
Director of Public Works, Daniel Johnson; Director of Finance, Leslie Haase; City Attorney, Peter Edwards; Assistant City Manager, Tony Robyn; City Manager, Nicholas Edwards

SUMMARY
This Council Bill will approve a Work Authorization with Allgeier, Martin and Associates Inc. to provide professional engineering consulting services for the 2025 Evaluation and Rehabilitation Toolbox for Wastewater Collection System in the not to exceed amount of Seventy-Nine Thousand Five Hundred and 00/100 Dollars ($79,500.00).

BACKGROUND
Since 2013, AMA has been a key contributor to the success of the City's annual sanitary sewer evaluation and rehabilitation program. This ongoing effort has significantly enhanced the reliability and performance of the City's sanitary sewer collection system. Through previous Work Authorizations (WA), AMA has provided valuable support to City staff in both the planning and construction administration of work orders issued to Ace Pipe Cleaning, Inc. under the prior evaluation and rehabilitation contract. AMA's responsibilities have included assisting with the planning and management of rehabilitation activities, developing detailed maps of targeted areas, and providing data and documentation used by City staff in periodic reports to the Missouri Department of Natural Resources. These reports support the City's compliance efforts related to the renewal of the sewer system and the reduction of excessive inflow and infiltration (I&I) within the collection system. Under this Work Authorization, AMA will continue to perform the similar task of supporting the City's efforts to renew and improve the sanitary sewer collection system. AMA was selected as the City's on-call engineering consultant based on its qualifications and proven track record in delivering these specialized engineering services. The proposed consultant fees are consistent with industry standards for design, bidding, and construction administration services.

FUNDING SOURCE
This is included in the FY 2025 Budget in the Sanitary Sewer Fund.

RECOMMENDATION
Staff recommend approval of this Council Bill on first reading.
