City Manager:	Sam L. Anselm	Date:

Recommended Action: Approval of Council Bill No. 2018-121

INTRODUCTION: In July 2015, City Council approved the Capital Plan for the expenditure of CDBG-DR funds which included the CDBG-DR funded Trail Construction project. In January of 2016 the City of Joplin approved a contract with Olsson Associates, DBA Joplin Engineering Team (JET) for the design, bidding and construction management of various disaster recovery projects which included the Mohaska Trail Project. This project includes the construction of a multi-use trail from Cunningham Park south toward the Kansas City University of Medicine and Biosciences (KCU) property then eastward connecting to former Mohaska Avenue and continuing to Pearl Ave. and then north to 26th Street. An additional portion will continue south along St. Johns Blvd. to 32nd Street. The portion along St Johns Blvd is funded through a federal grant administrated by MoDOT.

DISCUSSION: The agreement is to establish responsibilities of each party with respect to the redesign, construction, and maintenance of the Mohaska Trail so as not to traverse KCU's property. This agreement outlines the payment from KCU to the CDBG-DR program for the actual cost of the redesign, reengineering, and construction of the trail not to exceed one hundred seventy thousand and 00/100 dollars ($170,000).

RECOMMENDATION: City staff recommends the approval of the agreement with KCU in the amount of $170,000, as it pertains to the CDBG-DR funded Mohaska Trail project on an emergency basis per Section 2.12(6) of the Home Rule Charter of the City of Joplin, Missouri, and as such, this ordinance shall become effective immediately upon its passage.
