Council Bill 2024-277; Non-Exclusive Public ROW License Agreement
ALLO Missouri, LLC

REVIEWED BY
Director of Planning, Development & Neighborhood Services: Troy Bolander; Public Works Director: Dan Johnson; Finance Director: Leslie Haase; City Attorney: Peter Edwards; City Manager: Nicholas Edwards

SUMMARY
This Council Bill approves the Non-Exclusive Public ROW License Agreement

BACKGROUND
April 15, 2024 council approved the Development Agreement between City of Joplin and ALLO Missouri, LLC. As part of the detailed design package, site specific requirements for hardened equipment and structures by specific location were established. This allows for the network design to have explicit attention to redundancy and overall system resilience and considering spatial composition of critical facilities. Hardening refers to the resiliency provided through enhanced protective barriers to the network, safeguarding it from technical or physical damage and ensuring uninterrupted internet access.
The City requested 2 Central Offices be placed with a buried fiber ring connecting the facilities providing redundancy of the Network in the event the primary CO is unable to serve the network. One location will be on the site of City of Joplin Public Works facility at 1301 W 2nd St with a second location at 2749 E 30th St.
The City also requested that the Feeder Rings as well as routes connecting Anchor Institutions which include City Facilities, Public & Private Schools, Colleges and Hospitals, have buried infrastructure connections.

RECOMMENDATION
Staff recommends approval of Council Bill 2024-277, Non-Exclusive Public ROW License Agreement with ALLO Missouri, LLC.
