Item: Agreement with Anderson Engineering Inc. for Engineering Services Associated with the 20th Street Improvements from Connecticut Avenue to Range Line

Originating Department: Public Works – Engineering

Attachments: 1) Agreement-Work Authorization
2) Council Bill No. 2015- 149

Department Head: Troy Bolander
Department Head: Nicholas A. Heatherly
Finance Department: Leslie Haase
City Attorney: Peter C. Edwards
City Manager: Samuel L. Anselm

Recommended Action: Approval of an Agreement with Anderson Engineering in the not to exceed the amount of $1,050,000 for Engineering Services Associated with the 20th Street Improvements from Connecticut Ave to Range Line.

Background:
In 2013 the City of Joplin Council reviewed and approved the "Joplin Community Phase II Recovery Plan". City staff then prepared the first Partial Action Plan which included $7,862,400.00 for infrastructure. The specific activities included in the first action plan are design only of Storm Sewers, Sidewalks, and Curb & Gutters with the sanitary sewer system having both design and construction listed as an activity. The first partial action plan was approved by HUD and signed on January 16 of 2013 and the funds obligated by the plan have to be used by January 16, 2016. Due to the large number of infrastructure projects and the scheduling challenges with environmental clearance, public involvement, construction coordination, etc. the City staff have chosen to divide the work among several consultants with each focusing on an area assigned to them. It is anticipated that with the successful progress by each of the consultants on the initial work authorizations that future work authorizations will be assigned as the various projects in assigned areas progress towards completion.

D**iscussion:** By state statue the qualification based selection was used for procurement. City staff advertised in the Joplin Globe for one day and received 11 sets of qualifications from consulting firms for this project. Anderson Engineering Inc. was selected for design of Storm Sewers, Sidewalks, and Curb & Gutters within the area indicated on the attached map.

Recommendation: Staff recommends approval of an Agreement with Anderson Engineering Inc. in the not to exceed amount of $1,050,000 for Engineering Services Associated with the 20th Street Improvements from Connecticut Avenue to Range Line be approved on an emergency basis per Section 2.12 (6) of the Joplin City Charter.
