Department Head:	Nick Heatherly	Date:
Finance Department:	Leslie Haase	Date:
City Attorney:	Peter Edwards	Date:
City Manager:	Sam Anslem	Date:

Recommended Action: Approval of an Agreement by and between the City of Joplin and Crawford, Murphy & Tilly, Inc., for Construction Observation Services for the construction of Taxiways "C & F" at the Joplin Regional Airport on an emergency basis.

Summary: On June 15, 2015 the Council approval an agreement by and between the City of Joplin and Crawford, Murphy & Tilly, INC. for Engineering Design Services for Taxiway "B & N" (now C & F) at the Joplin Regional Airport on and emergency basis. CMT has designed and developed the bid package for the project.

This agreement is an amendment to the original design contract and will include construction observation, contract administration, closeout services, and Airport Diagram updates. Grant funded projects do not allow us to operate on estimates and we could not know what the scope of the observation services were until the project had been designed and approved by FAA.

Discussion: The FAA has issued a Grant for the project and all the cost for this agreement will be paid from the Grant based on a 95/5 State/Local share. This original contract involved the designing and bidding of both taxiway projects for the fee of $486,176 with this amendment adding and additional $444,735. The Local Share for the amendment will be approximately $22,236.

Recommendation: Staff recommends approval of the agreement by and between the City of Joplin and CMT for the construction observation services for the Taxiway C & F construction at the Joplin Regional Airport on an emergency basis to meet the construction timeline.
