1.0 SCOPE OF WORK

1.1 Purpose

The City is interested in obtaining the services of a consulting firm to perform a parks and recreation master plan study. The City is interested in a qualified firm capable of taking a creative and innovative approach to reviewing the needs of the community, the possible future options for Joplin's Parks and Recreation Department, while obtaining open-ended public input about the options. The City is soliciting competitive proposals to perform this study.

The planning process shall develop a comprehensive vision for the City of Joplin parks system as a whole; individual parks; open space areas; trails; recreation facilities; amenities and programs. The master plan is to cover a ten-year period complete with strategies, financial forecasts and schedules.

1.2 Background

The City, incorporated in 1873, is located in the southwest corner of Missouri and is the State's fourth largest metropolitan area. Population growth within the City limits, which covers more than thirty square miles, continues to grow modestly while rapid growth is being experienced in the surrounding regional area. Joplin's actual population is 49,526 that swells to approximately 225,000 during the day.

Joplin's Parks and Recreation Department provides robust amenities and activities for the citizens and visitors to our community. The parks department is comprised of the following facilities and amenities:

- 1,070 acres of park
- 24 park facilities
- 2 community centers
- 2 amphitheaters
- 3 swimming pools
- 1 athletic complex with premier tennis courts, soccer fields, baseball field and four softball fields
- 14 tennis courts
- 1 golf course
- 8 Pickle Ball Courts
- 4 Disc Golf Courses
- 6 Basketball Courts
- 1 Skatepark
- 1 Inline Hockey/Soccer Court
- Historic Joe Becker Stadium

It is anticipated that the City will be asking the citizens to renew a ¼-cent parks/stormwater sales tax in August of 2021. The master plan will be utilized to help design the ten-year project list for the sales tax renewal.

1.3 Scope of Services

The parks master plan shall include the following items as a minimum:

A. Demographic Analysis – Using information provided by the City and other sources, perform an analysis of the demographic and population characteristics of the City with specific emphasis on identifying the locations of existing and planned residential areas throughout the City. This analysis will also indicate age characteristics and population diversity.

B. Management Structure – Perform a review and analysis of the existing management structure, staff levels, policies and operations.

C. Funding Analysis – Review the past five year's budgets and the proposed future operating and capital budgets.

D. Parks, Open Space, Trails, and Facilities Inventory – Perform an inventory and analysis of all existing parks, open space, trails and facilities. Perform a site visit to each city-owned park, open space and facility, as well as trails, with the purpose of reviewing the existing conditions and identifying any future improvement needs.

E. Programs Analysis – Use public input, staff input and the Consultant's observations to perform a review of current program offerings, program and facility attendance and customer satisfaction levels. The analysis should consider not only the capacity of each amenity found within the system (playgrounds, ball fields, trails, natural areas, special facilities, etc.) as well as functionality, accessibility, condition, comfort and convenience. Evaluation criteria should be based on the expressed values of the community. The analysis will also include identification of best possible providers of community and recreation services and recommendations for minimizing duplication and enhancing possibilities for partnerships where appropriate.

F. City Parks Facilities Map – Develop a Service Area map, which shows the location of existing park facilities, open spaces and the areas served by those current facilities. Also, provide a comprehensive trails map, showing the location of existing trails.

G. Public and Staff Input – Obtain public input to identify the public perception of park facilities and programming needs. Utilize a public engagement process to determine various park needs, as well as programming needs. Obtain staff input regarding their perception of the needs, concerns, and opportunity for improved services, facilities and programs. Public input should include various stakeholder groups impacted by parks facilities and programs.

H. Level of Service Assessment/Citizen Survey – Perform a broad-based statistically valid survey to determine current satisfaction levels with programs and facilities, participation in current programs, parks currently used, identification of any needs. Utilize an approved method, such as a citizen poll, to gauge citizen support of any required financial backing needed to support the final master plan goals, plans and objectives.

I. Benchmarking Comparisons of Similar Park Systems – Create benchmarking comparisons to at least ten similar parks and recreation systems and using nationally accepted standards. Criteria will be generated by the Consultant and city staff to include such comparative data as park acreage (developed and undeveloped), per capita budgets, capital improvement expenditures, types of facilities and programs offered and so forth. Consultant will work with staff to identify the ten similar systems.

J. Vision, Goals & Objectives – Using the information learned above, identify a vision statement, proposed level of service standards, short-term goals and objectives, and long-term goals and objectives.

K. Future Priorities and Recommendations – Master Plan will include future priorities and recommendations prioritized based on the community goals and objectives obtained through the public input process. The recommendations should include detailed projected revenues and expenses.

L. Final Master Plan – Consultant will present the final master plan to the City Council, Parks Advisory Board, and the Citizen's Committee for the parks/stormwater sales tax renewal. This will include up to five (5) public presentations of the master plan results. The Parks Master Plan must include:
    - Written goals, plans, objectives, and policy statements that articulate a clear vision and "road map" and model for the future of the parks and recreation departments.
    - A summary of existing conditions, inventories, staffing and level of service analysis.
    - Charts, graphs, maps and other data as needed to support the plan and its presentation to the appropriate audiences.
    - A strategic action plan.

The City has also hired outside consultants to complete comprehensive studies of Memorial Hall and Ewert Pool with final recommendations for both facilities to be completed by the end of October. Master Plan Consultant shall incorporate these recommendations into the final Parks Master Plan.
