MOKAN
partnership

"A Missouri, Oklahoma, and Kansas Economic Development Collaborative"

10/29/2020

Troy Bolander
Director, Community Planning and Development
City of Joplin

The Joplin Area Chamber of Commerce and the MOKAN Partnership have worked with Aesir Technologies, Inc. to help expand its operational footprint in Joplin. But for the local incentives being offered, the company would be evaluating alternative options to meet their increased operational demands. This expansion, currently estimated at approximately $23,000,000, ultimately adds 350 positions new jobs to the community.

Aesir Technologies, Inc. has requested as part of its expansion intent the statutory allowance of local tax abatements. We request that the Enhanced Enterprise Zone Board approve the abatement within the scope of the guidelines approved by the Enhanced Enterprise Zone Board.

Sincerely,

Toby Teeter
President
Joplin Area Chamber of Commerce

Tony Robyn
Director
MOKAN Partnership
