Narratives

Disaster Damage:

HOUSING IMPACT
The majority of the property in Joplin that was affected by the May 20, 2011 tornado was residential property that contained a variety of single and multi-family as well as owner and renter-occupied dwellings. Because the tornado touched down on the west-side of the City, and indiscriminately tore through neighborhoods, residents of all demographic and income statuses were affected.

The estimates of affected residential dwellings, which would include everything from 1 apartment unit to a single family residence, showed that a total of 7,500 units received some level of damage from this disaster. Approximately 4,000 dwellings were destroyed with an additional 3,500 damaged affecting an estimated 17,000 residents. The dwellings that were deemed uninhabitable were estimated to displace approximately 9,200 residents from the City of Joplin.

INFRASTRUCTURE IMPACT
An assessment of public infrastructure and infrastructure systems that were damaged due to the May 22nd tornado was performed by the City's Public Works Department with the initial FEMA assistance was considered. The three main infrastructure elements that need additional assistance at this point are Sidewalks, Trails, and Trees.

ECONOMIC IMPACT
The path of the May 22, 2011 tornado also crossed a few of the commercial corridors in the City of Joplin which had a large effect on the local economy. There were 553 businesses destroyed or severely damaged, but approximately 85 percent, or 446 businesses, percent are back in operation. Thirty-nine businesses have indicated that they will not rebuild/reopen, and 21 new businesses have opened in the area. Between 4,500 and 5,000 employees were affected by the tornado but over 90 percent of jobs have been regained, which is partially attributable to the fact that many jobs were at major employers such as the hospitals and Wal-Mart, which have decided to rebuild. Overall, the local economy is fairly strong although smaller businesses are still struggling. The large number of volunteers, resources, and support has helped increase spending in the area and sales tax revenue is up 14 percent compared to a year ago. Future revenue will depend on how long the rebuilding will take and continued development of Joplin. Although the short-term sales tax revenue has prospered due to rebuilding activity, it will be important to introduce more diverse revenue sources back into the community that will ensure that revenues will remain after the rebuilding activities subside.

Recovery Needs:

HOUSING NEEDS
Shortly after the tornado, the City of Joplin commissioned a comprehensive Housing Study to assess the situation. The following

are selected recommendations from that study that confirm the need for housing in Joplin<!--[if !supportFootnotes]-->[1]<!--[endif]-->:
Objective #3: Introduce alternative housing options into the market including condominiums and townhomes to target young professionals and empty nesters.
Analysis:
According to demographics provided by ESRI, the age cohorts that include ages 20 to 24 and 30 to 34 are the largest age cohorts in the Joplin area. Many of the people in these age cohorts are young professionals, and some of them are young professionals with children. This segment of the population is an important and growing segment, and housing options should be targeted to meet their growing needs. In addition, the City of Joplin Planning Department stated that it has received several inquiries regarding the availability of condominiums or townhomes in the area by persons looking for lower-maintenance housing options while still maintaining ownership.
Action:
-Promote the development of upscale townhomes and condominiums with ample amenities for young professionals and empty nesters that are seeking high quality housing without maintenance responsibilities.
-Construct condominiums in urban areas like the CBD and just outside of the CBD so that young professionals can take advantage of being close to transportation while having entertainment options.

Objective #5: Replace demolished/destroyed Section 8 housing in a timely manner.

Analysis:
The May 2011 tornado destroyed or heavily damaged all of the family Section 8 properties in Joplin as well as two senior Section 8 properties leaving just one Senior Section 8 property in service in Joplin. Oak Meadows, Cedar Hill Apartments, Magnolia Heights and Mercy Village at St. John's have stated that they will rebuild their properties. However, Hampshire Terrace and JMA II Apartments were completely demolished and plans to rebuild at this time are unknown. Springview Gardens has not yet reported what will happen in the future.

Action:
-For Section 8 properties that are unsure whether they will rebuild or not, provide incentives to encourage rebuilding.
-Encourage Section 8 properties to apply for LIHTC funds for rehabilitation.
-Expedite the rehabilitation of these properties to place these developments back in service as soon as possible.

Objective #6: Encourage the development of affordable housing including LIHTC properties.

Analysis:
Only two LIHTC developments were affected by the tornado, Redwood Gardens and Redwood Towers; however, Redwood Gardens sustained major damage and Redwood Towers was completely demolished. The destruction of these two developments as well as the low vacancy rates and lengthy waiting lists at existing LIHTC developments indicate the need for additional LIHTC propert. Further, the demographics of the census tracts were tornados completely destroyed the housing stock illustrate a high percentage of renters and a high percentage of low to moderate income households. In order to provide approese

Recovery Needs:

olds, LIHTC properties would meet these needs by offering affordable rental housing.
Action:
-Entice developers through low-interest loans to increase the amount of LIHTC properties.
-Increase awareness and knowledge of the LIHTC and other state and federally assisted housing programs.
-Construct LIHTC properties near where many of the low to moderate income households previously lived.
- Encourage the development of all unit types from one to four-bedroom units in both multifamily and single-family units to create housing for both persons that were previously renters in traditional multifamily housing, as well as renters that were renting out larger single-family homes.
P 113
-Build approximately 560 new units of affordable housing including a combination of single-family rental homes and traditional multifamily apartments.

Objective #7: Educate low to moderate income households on how they can purchase homes and increase the supply of owner-occupied homes that are moderately priced.

Analysis:
Much of the single-family home housing stock that was destroyed by the tornado was older, lower priced homes. There is now a shortage of lower to moderately priced homes in the
Joplin area and many of the available homes are new construction with high price tags. As a result, the city needs to encourage the construction of moderately priced homes so that the residents that are now housed in the FEMA trailers can afford to move back into single-family homes.

Action:
- Educate future and prior homebuyers on financing options, access to capital and how to improve their credit worthiness.-Inform future and prior homebuyers on how they can maximum their insurance claims and use this money to rebuild and/or purchase a new home.
- Reach out to local developers to encourage the construction of moderately priced homes to replace the destroyed housing stock.

Objective #8: Replace at least 3,100 housing units including 1,400 rental units and 1,700 owner-occupied units. For the rental units, approximately 560 units should be affordable.

Analysis:

In the May 2011 tornado, 602 housing units suffered partial or semi-major damage while 3,422 units were completely damaged or destroyed. In addition over 3,000 homes suffered some form of damage, thus a total of over 7,000 homes were damaged by the May 2011 tornado. Residents of some of these destroyed units were able to find replacement housing among Joplin's existing housing stock or repair their homes. In order to determine the number and type of units that need to be replaced, we utilize the 3,422 units that were completely damaged or destroyed as a starting point. First, we determine the number of rental units and the number of owner-occupied units that need to be replaced. Basedpote renter percentage in the most densely populated areas that were damaged by the tornado, as illustrated on page 57, we assume that approximately 45 percent of the units destroyed were rental units.
NUMBER OF REPLACEMENT RENTAL UNITS
Number of units that were completely destroyed or damaged 3,422
*
Percentage of units that were rental units 45.0%
=TotalumeoRplcnnUtose150srng>preesvHui

Recovery Needs:

g Market Analysis,
Number of units that were completely destroyed or damaged 3,422
*
Percentage of units that were owner-occupied units 55.0%
=Total Number of Replacement Owner-Occupied Units Proposed 1,882

We assume that residents in approximately ten percent of the 3,422 units found other replacement housing among Joplin's existing housing stock or chose to repair/rebuild their homes. As a result, we recommend the replacement of 1,400 rental units and 1,700 owner-occupied units for a total of 3,100 units. The 1,700 owner-occupied units should contain a small percentage of condominium units through newly developed mixed-use developments and mostly single-family homes. These homes need to be priced at a variety of price points including homes for low to moderate income households that are priced at $95,000 or less.
Given that approximately 40 percent of households overall (both renter and home-owner) whose homes were damaged by the tornado were low to moderate income households, it is expected that a slightly lower percentage of home-owners were low to moderate income since it is often difficult for low to moderate income families to come up with down payment money for a home. As such, around 30 to 35 percent of owners have low to moderate incomes, which results in the need for 525 to 550 affordable homes. If 525 to 550 homes are built and priced at $95,000 or below, there should be an adequate amount of affordable owner-occupied homes to replace the destroyed units.
For the 1,400 rental units, we recommend a combination of market rate single-family homes, market rate traditional multifamily developments and affordable developments. To determine the number of affordable units that should be built, we have relied upon the percentage of low to moderate income households in the most densely populated areas that were damaged by the tornado, illustrated on page 41, and we assume that approximately 40 percent of households would qualify to live in affordable rental housing.MBER OF REPLACEMENT AFFORDABLE RENTAL UNITS
Number of proposed replacement rental units 1,400
*
Percentage of households that are low to moderate income 40.0%
= Total Number of Replacement Affordable Rental Units Proposed 560

As the above table illustrates, approximately 560 out of the 1,400 rental units should be affordable units that target low to moderate income households. The remaining 840 unit should be traditional market rate units. Of the 560 affordable units, we recommend that approximately 70 percent of these units should be traditional multifamily housing and 30 percent should be single-family rental homes. For the 840 market rate units,we recommend that the majority of these units should be traditional multifamily housing since single-family homes are not typically built to be permanent rentals.5
Action:
-Replace market rate multifamily apartments that were destroyed by building approximately 840 new market rate units, most of which are traditional multifamily apartments.
-Build approximately 1,700 new single-family homes in the areas that were heavily damaged by the tornado including single-family homes priced at $95,000 or belowto attract low tomoderateincomehouseholds.
-Buildapproximately 560newunits of affordablehousi

Recovery Needs:

ng including a combination of single-family rental homes and traditional multifamily apartments.
<!--[if !supportFootnotes]-->
INFRASTRUCTURE NEEDS
The assessment for damaged sidewalks resulted in a conservative estimate need of $2,500,000. The City did receive $117, 897 from FEMA for Sidewalk repair; however, the budget for this item remains at $2,500,000 to include a small amount for contingencies.
An important goal that was a result of the CART process was to incorporate more trails for the purpose of alternative forms of transportation. The City will use the construction of sidewalks along with the construction of trails to provide a safe means of transportation. The aim of this project will be to ensure that people of all income levels have access to the resources of the community through linking the damaged neighborhoods to each other and to the commercial and cultural resources of the City. The initial estimates for restoring trails in Parr Hill and Campbell Parks as well as adding connections from these parks to other resources totaled approximately $2,200,000.
Joplin lost between 15,000 and 20,000 trees according to the Missouri Department of Conservation sponsored task force which evaluated the loss soon after the disaster. Those trees were a hodgepodge variety of species which more or less acted effectively as shade trees and wind-blocks, acted as traffic calming measures and reduced street maintenance.
ECONOMIC NEEDS
Certain areas, such as those along Range Line Road and near Mercy Hospital, have experienced more rapid development for retail

and businesses whereas other areas, such as that along 20thStreet, have been slower to rebuild. It will be important to try to provide resources to ensure that the rest of the economic recovery is attained. Because of the slow development of smaller business and all businesses along certain corridors, it seems evident that stimulus will be needed to help recover economically. This will help bring the employment level back to the pre-tornado levels as well as provide important resources for the residents.

Public Comment:

The City of Joplin provided an informal public meeting on July 3rdwith a prominent posting on the City's official website indicating written comments would be accepted through July 12that 5pm. The public meeting was advertised in the Joplin Globe and information was disseminated through local groups that have been active in Joplin's recovery efforts. Although conversations were held with the attendees of the public meeting, no written public comments were received during the mandatory 7-day comment period nor have any written comments been received before or after the official comment period.

Overall Progress Narrative:

In December of this reporting quarter, the City of Joplin submitted Amendment #7 to the Initial Action Plan for this grant. The purpose of the submittal was to re-allocate and reflect the priorities for recovery activities adopted by City Council on July 7th, after an extensive vetting process. The Capital Plan approved added relevant projects and as a result deleted some projects that were not as relevant to the recovery efforts in Joplin. The Capital Plan includes proposed activities in this grant and the second CDBG-DR grant received. Since the Amendment for this grant is awaiting review and comment by HUD, the activities in this quarterly report remain the same. Proposed changes in each activity are reflected in the narrative for each. New activities that will be included in the next Quarterly Performance Report include: 1. Construction of a New Senior Center, damaged in the tornado; 2) Construction of public infrastructure in the Crossroads Industrial Park, Phase II to encourage new job growth; and 3) Funding for Future Economic Development activities.
The Joplin Homebuyers Assistance Program (JHAP) continues to be a success story for the recovery area. Application intake and home closings are consistently strong. City Council increased funding for the program during its Capital Plan process. Administratively, statistics and matrices are monitored weekly and ‘exit strategy’ sessions have started in anticipation of the program being completed by the end of 2016.

Activity Description:

Construction of trails to serve the area damaged by the May 22, 2011 tornado.

Location Description:

Activity Progress Narrative:

The Capital Plan process has reduced the amount of funding for the trails within the recovery area and will be reflected once Amendment #7 is approved by HUD. Further analysis has determined that the trails constructed and to be constructed in the recovery areas are to be classified as meeting urgent need. Even though the trail system runs through the low and moderate income area, the trails serve a broader population. The $1,346.44 will be moved to urgent need trails by a voucher revision.

Activity Description:

Repair and improve storm water systems damaged in proximity of any proposed housing developments to ensure adequate drainage options for larger scale projects.

Location Description:

Within the tornado zone.

Activity Progress Narrative:

As part of the Capital Plan process and suibsequent submission to HUD of an Amendment to the Action Plan, this activity will be deleted in the next reporting period. Initial concerns were that storm water improvements and corrections would be needed in the area in order for the 26th and McClelland site for affordable senior housing to be functional. It has been determined that the proposed storm water projects to be undertaken as part of 'Street Improvements' in the B-13-MS-29-0001 CDBG-DR grant will rectify storm water issues in this vicinity.

City of Joplin	$0.00	$0.00
Match Contributed	$0.00	$0.00

Activity Description:

Rehabilitation and construction of an arts center utilizing Joplin's Union Depot to help eleviate slum and blight. Through the Capital Planning process this project was not selected for funding. Funds will be reallocated to approved projects. This is a continuation of the de-funding of the SPARKS activity. $541,000 is being diverted to Crossroads I to provide for a sanitary sewer extension in conjunction with the improvements to 23rd Street to the industrial park.

Location Description:

Activity Progress Narrative:

The SPARKS activity was initially conceived to restore an historical depot, provide a cultural focal point and create economic development opportunity. Through research, discussion and observation it was determined that SPARKS would not best meet the recovery needs. During the Capital Plan process this project did not receive a high enough ranking to remain a viable project. This activity will be deleted in the next QPR. Re-allocation of funds will allow of public infrastructure to be built in the Crossroads Industrial Park to further job creation and economic growth.

Activity Description:

Providing down payment and closing cost assistance to LMI persons purchasing a new or existing home within the recovery area, promoting the repopulation of the area. City Council approved additional CDBG-DR funding of $7 million to be re-allocated from activities that are not going forward. This will come in an upcoming amendment. Based on closings to date and projected closings, we have changed the number of anticipated households to 218, representing approximately 40% of program applicants.

Location Description:

Within recovery zone.

Activity Progress Narrative:

Sixteen low/moderate income families closed on home purchases in the recovery area during this quarter. Applications for the down payment and closing costs assistance remains steady.

Activity Description:

Homeownership assistance provided to families that do not qualify as Low-moderate Income, but will still fulfill the urgent need for housing created by the May 22, 2011 tornado. This urgent need is based on the threat to public safety that is associated with vacant land in neighborhoods that were populated before the tornado.

Location Description:

Activity Progress Narrative:

Thirty-six urgent need (80%-120% of median income) households closed on homes in the recovery area this reporting period. Applications for down payment and closing costs assistance remains steady.

Activity Description:

Construction of rental housing to replace housing units that were lost due to the May 22, 2011 tornado.

Location Description:

Activity Progress Narrative:

As part of the Capital Plan process, supplying mixed-income rental housing ranked low and did not make the list of approved activities. This is reflected in the Amendment sent to HUD, awaiting approval. The determination was made that other resources were best suited (and had been best suited) for providing the replacement of rental housing, in particular, State and Federal Low Income Housing Tax Credits. This activity will be deleted in the next reporting period.

Activity Description:

Financial Assistance to provide rehabilitation of homes to replace units that were damaged in the May 22, 2011 tornado.

Location Description:

Within the tornado zone.

Activity Progress Narrative:

The Joplin Homeowner Rehabilitation Assistance Program (JHRP) has been met with mixed success. After the approval by HUD of Amendment #7 the funds will be reduced for the program. Among reasons cited, include the difficulty in adequately documenting any duplication of benefits. The program will continue to remain open as the City's partners find applicants who fit the requirements.

Activity Description:

Two temporary housing units were relocated to a permanent mobile home park due to the closing of the FEMA-funded Temporary Housing Unit group site. Two households that required the continued assistance of these units were transferred and provided an opportunity for temporary housing through a local non-profit.

Location Description:

This activity occured in the City of Joplin. Temporary Housing Units were relocated from the City's temporary park, Jeff Taylor Memorial Park, to Fountain Road Mobile Home Park.

City of Joplin	$0.00	$0.00
Joplin Housing Authority	$0.00	$65,959.80
Match Contributed	$0.00	$0.00

Activity Description:

As a result of the May, 2011 tornado, Joplin's housing stock including its Section 8 voucher program, was severely impacted. In regards to the Section 8 program, 85 voucher-holders were displaced. Since the tornado, new housing units have gradually been added to Joplin's inventory; however many of these are more costly as Joplin's rental market evolves. Compounding the issue, during its recovery, the Joplin Housing Authority experienced a decrease in its "fundable" voucher population due to the lack of available units. As a result of this decrease, the voucher budget provided to the City also decreased, despite the needs of additional households that were displaced.
Therefore, HUD through the Community Development Block Grant Program – Disaster Recovery and through the Public and Indian Housing Program have granted waivers to allow CDBG-DR funds to assist Joplin's Housing Authority restore its program to reach pre-disaster voucher levels. Tenant-based rental assistance will be assisted with a maximum of $290,000.00 in CDBG-DR funds within a two year period.

Location Description:

Various locations within the City of Joplin.

Activity Progress Narrative:

Both the waiver extension from Public and Indian Housing and the waiver from Community Development arms of HUD have expired. A final monitoring and gathering of beneficiary information is occuring the first part of the first

quarter of 2016 and will be reported during that period. THe balance of funds will be redirected to other approved activities.

Joplin Housing Authority	$0.00	$0.00
Match Contributed	$0.00	$0.00

Activity Description:

Due to tornado damage and subsequent damage and wear and tear from heavy trucks and equipment used in the clean-up effort which included demolition, construction and repair of utilities, several Joplin Housing Authority parking lots were damaged. Costs to repair and/or overlay were not covered by FEMA, insurance or other funding sources. Additionally, yards and trees at Joplin Housing Authority's housing sites were damaged. These repairs are central to the viability and livable of the affordable rental housing units as well as access to the Housing Authority's temporary office where they accept applicants. Therefore, up to $210,000 will be available in Community Development Block Grant Program – Disaster Recovery funds to make the necessary repairs.

Location Description:

Parr Hill - 19th and Vermont
Bartlett Hills - 24th and McCoy
Leonard Estates - 22nd and Jackson
All within the tornado zone.

Activity Progress Narrative:

Parking lot repairs to Joplin Housing Authority facilities in the recovery area have been completed. Landscaping bid documents are being prepared to repair and replace trees and yards that were also destroyed at the facilities for which no other assistance had been provided. Spring planting is anticipated.

Activity Description:

Proposals will be sought for the provision of senior housing choices that benefit low to moderate income seniors. Proposals may include indepent living, assisted living, memory care and other options for the low to moderate income senior community. Low vacancy rates in existing units demonstrates the need to build back additional options for seniors.

Location Description:

Within the disaster zone.

Activity Progress Narrative:

One proposal for the provision of affordable senior housing development at 26th and McClelland in the recovery area was received by the City. The proposal is being reviewed in accordance with the bid request. The Joplin Redevelopment Corporation, the entity landbanking the property, will be provided with the results at their January meeting. Next steps, whether rejections, rebid, or different avenue will be determined during the first quarter of 2016.
