Narratives

Disaster Damage:

On Sunday, May 22, 2011, a catastrophic (EF-5) tornado struck the City of Joplin, Jasper County, and Newton County in southwest Missouri in the late afternoon. With winds in excess of 200 miles per hour (mph), the ¾-mile-wide tornado cut a 6-mile path of destruction through central Joplin. The tornado caused 161 fatalities and approximately 1,371 injuries as of May 27, 2011, making it the single deadliest U.S. tornado since 1947. Thousands of structures were destroyed or damaged, from single family homes to apartment buildings to large retail and public buildings, including St. John's Regional Medical Center, the Home Depot, and Wal-Mart.
The tornado caused severe damage to the City's housing, business, infrastructure, and public service sectors. The devastation caused by the tornado emphasizes the need for a thoughtful and comprehensive long-term recovery process.This Action Plan was developed after soliciting considerable input from affected communities and stakeholder groups beginning immediately after the disaster with the Citizens Advisory Recovery Team (CART) Plan and Comprehensive Plan 2012 and ultimately concluding with the City of Joplin's Capital Plan.

Recovery Needs:

An initial CDBG-DR grant that was received addresses the loss of significant number of housing units and the activities intended to meet the need for additional housing.
An assessment was completed to determine damage done to infrastructure systems. Rankings from 1-5 were applied with a ranking of 5 being the most heavily damaged. As a result, it was determined that 412,000 linear feet of sanitary sewer was damaged, 334 storm inlets were damaged, 329,190 linear feet of repairs needed to streets, 182,000 linear feet of curb and gutter was damaged, 119,160 linear feet of sidewalks were damaged and 554 ADA ramps need to be replaced, repaired or added.
In addition, an opportunity to provide open space in an LMI neighborhood on land where the former damaged St. John's Regional Center stood, availed itself in the development of an 18 acre passive park. While the school district quickly replaced many of the school buildings that were destroyed, the early childhood education program needed to be moved out of FEMA trailers. Half day daycare will be added in a new building since many of the daycare slots were not replaced after the tornado.
553 businesses were destroyed or severely damaged by the storm. Between 4,500 and 5,000 employees were affected. While businesses have rebuilt, there remains a need to employ the unemployed and upgrading the skill sets of the underemployed. There is a need to fill gaps in the area's workforce, provide better-skilled workers to existing and new companies and enable local residents, particularly those with low to moderate incomes, to advance their skills and consequently, the standard of living.
With 161 dead and nearly 1400 injured, it is expected that one-third to one-half of the post-tornado population will experience short and long-term mental health issues. Additional services in the community are needed to address the increased needs.

Overall	This Report Period	To Date
Total Projected Budget from All Sources	N/A	$113,172,499.88

Total Budget	($103,500.12)	$113,172,499.88
Total Obligated	($203,500.12)	$113,072,499.88

Match Contributed	$0.00	$0.00

Progress Toward Required Numeric Targets

Requirement	Target	Actual
Overall Benefit Percentage (Projected)		64.42%
Overall Benefit Percentage (Actual)		63.91%
Minimum Non-Federal Match	$0.00	$0.00
Limit on Public Services	$16,991,400.00	$0.00
Limit on Admin/Planning	$22,655,200.00	$8,045,337.27
Limit on Admin	$5,663,800.00	$4,896,153.40
Most Impacted and Distressed Threshold (Projected)	$107,612,200.00	$0.00

Overall Progress Narrative:

After the filing of this QPR, a minimum of ten subrecipient activities will be closed in DRGR. In addition, infrastructure improvement activities are being associated so an entire picture of where and what improvements were made within the recovery zone, based on condition assessments, can be shared. Infrastructure activities were broken down in manageable square block areas throughout the recovery. Several activities within infrastructure were often underway at the same time. Minor amendments will continue to be made to the action plan by the City with remaining budget balances over the next six months.

Activity Description:

Recovery from a major natural disaster can take years or even decades. The community continues to have an ongoing need for economic development projects to stimulate the economy. A key part of the recovery is employing the unemployed and upgrading the skill sets of the underemployed. The proposed Advanced Training and Technology Center will help fill gaps in the area's workforce, provide better-skilled workers to existing and new companies, and enable local residents, particularly those with low/moderate incomes (LMI) to advance their skills and, consequently, their standard of living. This allocation will provide the means to purchase and renovate a building for the center.
This project will aggressively work with those organizations which are directly in contact with people in the Joplin community who are most at risk because of a lack of education, minimal job skills and/or minimal work experience. The proposed Center is in close proximity (within walking distance) to the greatest identified need within the City of Joplin. Three homeless shelters: the Salvation Army, Joplin Community Clinic, and the Joplin Health Department are all within walking distance from the proposed Center. These stakeholders will be used to identify the basic skills and needs of those most at risk. The Center will work with those citizens recommended by these stakeholders to enhance their basic job skills, allowing them the opportunity for employment in positions that may provide a higher income, better benefits, and more stability. Ending homelessness among military veterans will be a key component of the outreach process. Veterans groups will be included as stakeholders to advance the dialogue and promote the opportunities for training.
The Center will also be a focal point for key existing, new and emerging technology in advanced manufacturing and information systems, and provide training in these industries. It is anticipated students will come from the existing workforce and be trained at the direction of their employers, although some students may take the training on their own to improve their skills and be better positioned for advancement at their current or other

employers.
The size and construction of the proposed facility will make it suitable for a wide range of opportunities. The vacant building still offers a wide variety of educational and training “spaces” that can easily be modified to meet the needs as proposed. The program will initially target four sectors:
· Basic Job Training & Education (skills incubation)
· LMI outreach with stakeholders serving that population. LMI training in the following:
o Basic job soft skills
o Entry-level manufacturing skills, including welding and maintenance
o Entry-level culinary and commercial kitchen skills, cleaning, maintenance, safety
o Basic computer skills
o Basic customer service skills
· Advanced Manufacturing, Information Technology, Culinary Services & Construction
o Industrial maintenance, including electronics
o Welding
o Machining (emphasis on Programmable Logic Controllers)
o Advanced manufacturing technology such as 3D printing basics
o Cooking, food preparation skills, and inventory management
o Catering services and management
o Advanced food safety
o Enhanced computer skills, including graphics, networking
o Financial management tools
o Cloud systems
· Technology Based Incubation and Advanced Skills Development
o Missouri targeted markets: advanced manufacturing, IT, life sciences
o Investigate life science research associated with proposed new medical school
o Seek opportunities with new MSSU DNA research lab, specifically food safety testing
o Utilize services of Newman Innovation Center
o Provide tenants access to Small Business and Technical Development Center (SBTDC) services and scheduled seminars for ongoing outreach and training to clients
o Propose partnership with Mercy Research and Development in Springfield to encourage physicians to develop new medical devices in Joplin
o 3D printing devices for entrepreneurs for rapid prototyping
o Firms will be encouraged to provide on-going advanced training for employees to improve workforce skills
o Assist entrepreneurs seeking capital to fund startup or in growth stages
o Provide conduit to technology research and assistance utilizing existing partnership with 10 Missouri Certified Innovation Centers
o Provide educational programs and connectivity to MSSU, Missouri Alternative and Renewable Energy Technology (MARET) Center
Crowder College, a partner in the project, aims to enhance the skills of several thousand residents over the next 5 years. The Advanced Training and Technology Center is an investment that not only has an immediate impact, but a continued economic impact throughout Joplin’s future. Phase I of the Advanced Training & Technology Center focuses on the acquisition and renovation of the proposed facility, while a future Phase II will focus on the furniture, fixtures, and equipment.

Activity Description:

For many years, Joplin’s demand for high-quality child care and preschool education has exceeded the supply. The Joplin community has always struggled to successfully meet the needs of its youngest and most vulnerable children with not having enough early childhood space.
Since th 2011 disaster, this situation has become exponentially worse. It has been estimated that Joplin lost over half of its’ daycare/early childhood education slots. In fact, due to the critical shortage, parents report they must seek childcare in other, neighboring communities. In order for families to continue working, they are in dire need of daycare services, and the availability of high quality daycare has reached crisis proportions.
Assistance will be provided for the construction of an early childhood education facility.

Location Description:

In the tornado area, on land donated by Mercy Hospital.

Activity Description:

As a result of the May 2011 tornado, the Jasper County Juvenile Detention Center has recorded an increased intake of offenders from the Juvenile Circuit Court system and documented a need for more juvenile interventions. Not only is there an increased number of offenders cycling through the justice system, but as a result, utilization of a new approach for these juveniles is much needed.
The Juvenile Detention Center proposes the implementation of a multi-disciplinary approach to creating interventions that are individualized and less punitive, rather than locking the juvenile offender in a detention cell. The Jasper County Juvenile Court intends to implement more interventions to better serve the disaster affected Joplin juveniles and their families. With the additional funding, the Center plans to hire two paraprofessional teacher's aides and one qualified mental health professional to provide evaluations and increase programming needs.

Activity Description:

The Ozark Center will provide in-patient and out-patient mental health services to Joplin children and adults within the LMI population who suffer from conditions related to the May 2011 tornado. Services will be provided to both uninsured and underinsured LMI individuals to help combat conditions related to trauma as a result of the tornado, some of which include post-traumatic stress disorder, anxiety disorders, depression, and substance abuse. Approximately 70% of the Ozark Center's clientele are considered LMI; of this number approximately 30% of clientele are uninsured. According to a recent study conducted by the University of Missouri, post-traumatic stress disorder (PTSD) in Joplin rose from 12.26% at 6 months post-disaster to 26.74% at 30 months post-disaster. Research results indicate that long term (multi-year) community disaster mental health monitoring, assessment, referral, and outreach services are needed following such an event. Funding will provide for increased staff capacity.

Location Description:

Ozark Mental Health - 1105 E 32nd, in the tornado zone.
