CITY OF JOPLIN, MISSOURI

The City is accepting submissions for Engineering/Architectural design, plans, specifications, and construction administration services for a new Veteran's Memorial Park and/or an American Legion facility, located at 212 W 8th St, Joplin, MO 64801 in Joplin. The property is in the heart of downtown Joplin owned by the City of Joplin.

For nearly 100 years, Memorial Hall has played a dynamic role in our community. It was built in 1925 as a war veteran memorial to honor the men and women who gave their lives for our freedoms. It has served as the mainstay to welcome home our soldiers and provided a gathering place for Veteran's' activities, their associations, and meetings. Through the years, citizens attended concerts, plays, sporting events and community programs. With such a wide history of activity, it holds many memories for the community and region.

Unfortunately, this 95-year-old building has fallen in disrepair and needs to be demolished. Two recent analyses conducted by SFS Architecture in 2021 and 2024 revealed deterioration in the original building structure and construction renovations, failed roofing support systems and foundations, along with various environmental hazards from decades of moisture intrusion and building settling.

Memorial Hall has served as a meeting and event space for our local Veterans of Foreign Wars. Its importance as a central community gathering pace cannot be understated. Any future designs should incorporate opportunities for future related activities and events. In most recent years, utilization of Memorial Hall devolved with new larger and more modern venues opening at several area casinos and venues offering concerts and other productions once hosted in Joplin. Joplin Schools included a performing arts center to seat nearly 1,200 people when it rebuilt in 2014. In 2022, Connect 2 Culture opened the Harry M. Cornell Arts & Entertainment Complex adjacent to and just north of Memorial Hall. The Cornell Complex offers a 450-seat performance hall and other amenities. With these additions in our community, it is time for the City to take a fresh look at the site of Memorial Hall and site to better serve our community.

In June of 2024, the Joplin City Council recommended the building be demolished and the site be developed as the Joplin Veteran's Memorial Park. Given its history, the building holds significant war memorials and related artifacts to be preserved and incorporated into the future park. The building itself is a memorial and we expect some architectural design features may be retained or incorporated into the design and future park if possible. Strategies and methods for educating on and incorporating the history and significance of the site should be included in this design.

The City is soliciting proposals on what could be done with this site and property after the removal of Memorial Hall. We expect deep engagement with the community during the process. This selected firm will need to develop two concepts for the Memorial Hall site. The first concept envisions replacing Memorial Hall with a facility for the American Legion and public space for the viewing of the veteran's memorials. The concept should also include landscape design for any unused greenspace. The second concept envisions a veteran's memorial park for public gathering and viewing of the veteran's memorials. The selected firm will lead a team of city and community leaders to perform a building memorials preservation and assessment, seek community feedback and guidance, evaluate a variety of design options based on the feedback received, and provide a cost estimate for the recommended future use of the site as a dedicated space for the American Legion and/or a park worthy of

the history and prominence of the site in the downtown Joplin area. This design should consider previous assessments. Previous SFS Architecture Memorial Hall analyses were completed which identifies key issues and components to be removed and retained for the park.
