INSTRUCTIONS TO BIDDERS

The City of Joplin, Missouri proposes to PURCHASE the following:

BODY SCANNING SYSTEM
General Description and Specifications

-Provide a Body Scanner to the Joplin City Jail that performs Vertical Scanning using X-ray beams that show images of the inmate's full body including below their feet and above their head.

-Provide a Body Scanner that has a Operator's control Kiosk that can be operated up to 10 feet away from the Body Scanner.

-The Body Scanner needs to use low dose imaging that adheres to the "As Low As Reasonably Achievable" concept that meets American National Standard regulations N43.17-2009.

-The Body Scanner needs to be able to allow the addition of a name to the images, time/date stamp on the images and be able to show the institution name, JMS number and operator's name.

-Due to limited space available in our jail the Body Scanner must be able to fit in an area that is 36" X 75" (3 ft X 6ft 3in) and function on standard 110 volt electrical systems.

-The body scanner will need to be waterproof up to 4 inches from the ground.

-Provide training for the City's Jail Staff on the use of the Body Scanner.

-Provide a 5-year warranty on all equipment.

-Provider must agree to accept NET30 Purchase Orders.
