Narratives

Disaster Damage:

On Sunday, May 22, 2011, a catastrophic (EF-5) tornado struck the City of Joplin, Jasper County, and Newton County in southwest Missouri in the late afternoon. With winds in excess of 200 miles per hour (mph), the ¾-mile-wide tornado cut a 6-mile path of destruction through central Joplin. The tornado caused 161 fatalities and approximately 1,371 injuries as of May 27, 2011, making it the single deadliest U.S. tornado since 1947. Thousands of structures were destroyed or damaged, from single family homes to apartment buildings to large retail and public buildings, including St. John's Regional Medical Center, the Home Depot, and Wal-Mart.
The tornado caused severe damage to the City's housing, business, infrastructure, and public service sectors. The devastation caused by the tornado emphasizes the need for a thoughtful and comprehensive long-term recovery process.This Action Plan was developed after soliciting considerable input from affected communities and stakeholder groups beginning immediately after the disaster with the Citizens Advisory Recovery Team (CART) Plan and Comprehensive Plan 2012 and ultimately concluding with the City of Joplin's Capital Plan.

Recovery Needs:

An initial CDBG-DR grant that was received addresses the loss of significant number of housing units and the activities intended to meet the need for additional housing.
An assessment was completed to determine damage done to infrastructure systems. Rankings from 1-5 were applied with a ranking of 5 being the most heavily damaged. As a result, it was determined that 412,000 linear feet of sanitary sewer was damaged, 334 storm inlets were damaged, 329,190 linear feet of repairs needed to streets, 182,000 linear feet of curb and gutter was damaged, 119,160 linear feet of sidewalks were damaged and 554 ADA ramps need to be replaced, repaired or added.
In addition, an opportunity to provide open space in an LMI neighborhood on land where the former damaged St. John's Regional Center stood, availed itself in the development of an 18 acre passive park. While the school district quickly replaced many of the school buildings that were destroyed, the early childhood education program needed to be moved out of FEMA trailers. Half day daycare will be added in a new building since many of the daycare slots were not replaced after the tornado.
553 businesses were destroyed or severely damaged by the storm. Between 4,500 and 5,000 employees were affected. While businesses have rebuilt, there remains a need to employ the unemployed and upgrading the skill sets of the underemployed. There is a need to fill gaps in the area's workforce, provide better-skilled workers to existing and new companies and enable local residents, particularly those with low to moderate incomes, to advance their skills and consequently, the standard of living.
With 161 dead and nearly 1400 injured, it is expected that one-third to one-half of the post-tornado population will experience short and long-term mental health issues. Additional services in the community are needed to address the increased needs.

Overall Progress Narrative:

SF425 Expenses incurred through June 30th, 2020 are $110,506,224.93

The City continues to finish up infrastructure improvement projects. Contractors are in various stages. Some are still in construction, some need walk-throughs and some are working on punch list items and pay requests. Much time was spent during this quarter to find the exact location of several easements along the east side of the new Senior Center in order to improve access to the kitchen door for the Meals on Wheels Program. Design will proceed during the third quarter.

The City continues to monitor expenditures to ensure the most efficient use of the balance of grant funds available.
