JOPLIN SPORTS FACILITY
COMMUNITY IMPROVEMENT DISTRICT

PETITION TO THE CITY OF JOPLIN, MISSOURI FOR THE CREATION OF THE

JOPLIN SPORTS FACILITY COMMUNITY IMPROVEMENT DISTRICT

Submitted December 18, 2024

PETITION FOR THE CREATION OF THE JOPLIN SPORTS FACILITY COMMUNITY IMPROVEMENT DISTRICT

To the City Council ("City Council") of the City of Joplin, Missouri ("City"):

The undersigned petitioners ("Petitioners"), (1) being the owners of record owning more than fifty percent (50%) by assessed value of the real property within the boundaries of the hereinafter described Joplin Sports Facility Community Improvement District ("District"), and (2) comprising more than fifty percent (50%) per capita of all owners of real property within the boundaries of the District, do hereby petition and request that the City Council establish the District under the authority of Sections 67.1401 to 67.1571, R.S.Mo. ("Act"). In support of this petition ("Petition"), Petitioners set forth the following information in compliance with the CID Act.

1. **Boundaries, Legal Description, and Map of District**

   The legal description of the District is attached hereto as Exhibit A. A map of the boundaries of the District is attached hereto as Exhibit B, confirming that the District is contiguous. The District is located entirely within the corporate boundaries of the City. A summary of the parcels within the District owned by the Petitioners is attached hereto as Exhibit C.

2. **Name of District**

   The name of the District is Joplin Sports Facility Community Improvement District.

3. **Signatures May Not Be Withdrawn**

   Notice has been provided to all signers of the Petition that their signatures may not be withdrawn later than seven (7) days after the filing of this Petition with the City Clerk. This notice is included on each signature page attached to this Petition.

4. **Five-Year Plan**

   A five-year plan stating a description of the purposes of the District, the services it will provide, the improvements it will make and an estimate of costs of these services and improvements to be initially incurred is attached hereto as Exhibit D.

5. **District Type**

   District is a political subdivision of the State of Missouri in accordance with the Act.

6. **District Governance, Number of Directors**

   The District is governed by a board of directors appointed by City, which board shall consist of five (5) members.

7. Board of Directors

a. Number. The District is governed by a Board of Directors ("Board") consisting of 5 members, who have been appointed by the municipality in accordance with the Petition.

b. Qualifications. Each member of the Board ("Director") shall meet the following requirements:

(1) be at least 18 years of age;

(2) be and must declare to be either an owner of real property within the District or an authorized representative of an owner, an owner of a business operating within the District, or a registered voter residing within the District, as provided in the CID Act;

(3) are citizens of the United States and have been a resident of the State of Missouri for at least one year immediately preceding the date upon which he or she takes office in accordance with Article VII, Section 8 of the Missouri Constitution and § 67.1451.6, R.S.Mo;

(4) except for the initial directors named in this Petition, be nominated according to slates submitted as described in this Petition; or in the case of Interim Directors, be elected by the remaining Directors; and

(5) At least one director must be someone who (1) resides within the City; (2) is qualified to vote; (3) has no financial interest in any real property or business in the District; and (4) is not a relative to an owner of real property or a business within the District.

c. Initial Directors. The initial directors ("Initial Directors") and their respective terms were identified by the City as follows:

Ryan Stanley	4 years	City Representative
Derek Edwards	4 years	City Representative
Fred Palmer	2 years	City Representative
Dustin Parker	2 years	City Representative
Patty Vavra	2 years	Independent Director

d. Terms. Each Initial Director named above shall serve for the term set forth opposite his/her name or until his/her successor is appointed in accordance with this Petition. Each Successor Director shall serve a four (4) year term or until his/her successor is appointed in accordance with this Petition. If, for any reason, a Director is not

able to serve his/her term, the remaining Directors shall elect an Interim Director to fill the vacancy of the unexpired term.

Notwithstanding anything to the contrary, any Director's failure to meet the qualification requirements set forth above, either in a Director's individual capacity or in a Director's representative capacity, shall constitute cause for the Board to take appropriate action to remove said Director.

e. Ex Officio Members. The City may designate an ex officio member to the District's Board of Directors who may attend all open meetings of the Board but shall have no voting power. The ex officio member may attend closed meetings of the Board unless the member has a conflict of interest regarding the subject matter of the closed meeting and/or the subject matter of the closed meeting involves potential or actual legal actions relating to the City. The District shall provide the ex officio member with notice of all meetings and copies of all correspondence provided to the members of the Board. The City's failure to designate an ex officio member will not affect the Board's ability to meet, act upon certain matters and otherwise carry out its business.

f. Successor Directors. Successor Directors shall be appointed by the Mayor with the consent of the City Council by resolution according to a slate submitted by the Board to the City of Joplin, Missouri's City Clerk ("City Clerk"). The slate of proposed Successor Directors shall include evidence in a form satisfactory to the City that each Successor Director meets the statutory qualifications to serve as Director pursuant to the CID Act and that the owner's representatives are duly authorized to serve as Directors.

Upon receipt of a slate of Successor Directors, the City Clerk shall promptly deliver the slate to the Mayor, and the Mayor shall either (i) approve the slate and seek consent of same from City Council at the next regular meeting of City Council, or (ii) return the slate to the Board with a request for alternates for any or all of the Board petitions identified on the slate.

Should City Council refuse to consent to the slate submitted to it by the Mayor, it shall request alternatives for any or all Board positions identified on the slate and within ten (10) days of such refusal, the Board shall submit an alternative slate to the Mayor with two (2) alternates for each of the Board positions requested by City Council.

Should the Mayor reject and return the slate to the Board, the Board shall within ten (10) days of such refusal submit an alternative slate to the Mayor with two (2) alternates for each of the Board positions requested by the Mayor. After receipt of the alternative slate, the Mayor shall either (i) choose from the alternate(s), approve the slate, and seek consent of City Council at the next regular meeting of City Council, or (ii) reject the alternative slate. In the event the Mayor rejects the alternative slate, Successor Directors shall be appointed by the Mayor with the consent of City Council.

8. Total Assessed Value

The total estimated assessed value of all real property located within the District, as reported by the Jasper County Assessor's Office as of the date of this Petition, is $21,428,300. As depicted on Exhibit C, Petitioners own real property within the District currently assessed at $10,903,820 representing 51% of the assessed value of all of the real property within the District.

9. Determination of Blight

Petitioners are seeking a determination that the District Land is a blighted area pursuant to the Act as shown in the Blight Study attached as Exhibit E. Upon a finding of blight by the City Council, the District may contract with any private property owner within the District to demolish and remove, renovate, reconstruct, or rehabilitate any building or structure on such property provided that the City Council has determined that the action to be taken pursuant to such contract is reasonably anticipated to remediate the blighting conditions and will serve a public purpose.

10. Proposed Length of Time

The District will continue to exist and function until the earlier of: (1) all of the obligations (and accrued interest), as defined in the Act, of the District have been repaid, or (2) the date which is twenty-seven (27) years from the date of the Ordinance establishing the District. The City may extend the duration of the District pursuant to Section 67.1481 of the Act.

11. Proposed Method of Financing District Costs

The costs of the district improvements and services will be financed through a conventional secured loan, reimbursement agreement and/or bonds issued by the District or other authorized body, any of which will be secured by the pledge of applicable revenue received from the imposition of the CID Sales Tax within the District. The costs of services shall only be paid by revenues of the district after the costs of improvements have been fully paid.

12. Sales Tax

The District may by resolution of the Board, and in accordance with the Act, impose a sales tax ("CID Sales Tax") at a maximum rate of one percent (1.0%) upon all eligible retail sales within the District.

13. Maximum Rates of Business Licenses and Real Property Taxes

The District is not authorized to impose any real property tax levy or business license taxes within the District.

14. Special Assessments

The District is not authorized to levy a special assessment.

15. Limitations on Borrowing Capacity

Petitioners do not seek limitations on the borrowing capacity of the District.

16. Limitations on Revenue Generation

Petitioners do not seek limitations on the revenue generation of the District.

17. Other Limitations on District Powers

Petitioners do not seek limitations on the authority of the District, except as set forth in this Petition. The District shall have the full range of powers authorized under the provisions of the CID Act.

18. Audit

The City Auditor shall have the right to examine or audit the records of the District and shall require that the District make such records available to the City Auditor within ten (10) days after a written request for the same is made.

19. Severability / Exhibits

It is the intention of the Petitioners that the provisions of this Petition shall be enforced to the fullest extent permissible under the laws and public policies of the State of Missouri and that the unenforceability (or modification to conform with such laws or public policies) of any provision hereof shall not render unenforceable, or impair, the remainder of this Petition. Accordingly, if any provision of this Petition shall be deemed invalid or unenforceable in whole or in part, this Petition shall be deemed amended to delete or modify, in whole or in part, if necessary, the invalid or unenforceable provision or provisions, or portions thereof, and to alter the balance of this Petition in order to render the same valid and enforceable. All exhibits attached hereto are hereby incorporated into this Petition by reference.

20. Request to Establish District

By execution and submission of this Petition, the Petitioners request that the City Council establish the District as set out in this Petition.

EXHIBIT D
FIVE-YEAR PLAN
ESTIMATED COSTS OF IMPROVEMENTS AND SERVICES*

I. **General**. The District will be established to fund those items set forth below in the CID Project Budget, and also fund the initial start-up costs and ongoing operating costs of the District. The District Projects will serve the public purpose of remediating the blighting conditions found to exist within the District.

II. **District Purposes.** The purposes of the District are to:

(1) Provide or cause to be provided for the benefit of the District, a 135,000 square feet state of the art sports facility which will host regional tournaments in a variety of sports.

(2) Fund the costs, expenditures, and undertakings of the Sports Complex.

(3) To levy and collect the Sales Tax in order to provide a source of payment for the Sports Complex.

(4) Such other purposes and activities authorized by the Act and allowed by the Petition.

III. **Estimated Initial Five-Year Budget**. The estimated revenue from the Sales Tax and expenditures for the initial five years of the District are set out on Exhibit D-1:

Notes:

A The sales tax may only be levied after an approved board resolution and sales tax election in accordance with the CID Act. The sales tax is estimated to become effective January 1, 2025, subject to qualified voter approval in a mail-in ballot election. Any sales tax approved by qualified voters will not become effective until the first day of the second quarter following the approval of such tax.

B3 For the first year, this includes all legal costs associated with the formation of the District, drafting, filing and prosecuting this Petition, the negotiation of any and all agreements between the District and the City, and engineering, insurance and accounting fees.

* To the extent the actual revenue and costs of improvements vary from this five-year plan and CID Project Budget, the District's budget will be modified by the Board on an annual basis.

4	Design Fee	$200,000	$200,000	$200,000	$0	$0
5	Civil	$150,000	$100,000	$100,000		
6	Outdoor Field Development	$1,000,000	$2,000,000	$2,500,000		
7	Sports Consulting/Project Management Fee	$890,281	$890,281	$890,281		
8	Insurance	$3,000	$3,000	$3,000	$3,000	$3,000
9	Legal	$50,000	$25,000	$25,000	$25,000	$25,000
10	Accounting	$3,000	$3,000	$3,000	$3,000	$3,000
11	Audit	$0	$10,000	$0	$0	$0

Notes:

Acquisition includes purchase of 23.85 acres at $12.00 PSF for sports complex land plus $4,800,000 for purchase of IP land + $1,500,000 for 2120 Davis Blvd. acquisition.

These costs are estimates only and may fluctuate based on actual revenues/costs incurred for purposes under the CID Act, the CID Cooperative Agreement and TIF Contract. To the extent the actual revenue and costs of improvements and services are in variance of with this five-year plan, the District's budget will be modified by the Board on an annual basis.

All funds in the Building Construction and Enhancements line item will be used towards the new sports facility.

Section I

Introduction

The purpose of this analysis is to determine if the proposed Joplin Sports Facility Community Improvement District, which consists of approximately 260.9 acres (excluding right of way), and thirty-nine (39) property/tax parcels located generally between E. 12th Street on the north, Joplin city limits on the east, Kansas City Southern Railway on the south, and S. Highview Avenue and S. Range Line Road on the west in Joplin, Jasper County, Missouri (as further described herein, the "Study Area") qualifies as a "blighted area" according to the Community Improvement District Act – Sections 67.1401 to 67.1571 R.S.Mo. (the "CID Act").

The consultant who prepared this Blight Study, Patrick Sterrett of Sterrett Urban ("Consultant"), is an urban planner who earned a Master of Urban Planning from the University of Kansas and is certified by the American Institute of Certified Planners. Additional qualifications of Mr. Sterrett are included in Appendix D.

The Consultant visited the Study Area in August and September 2024. The effective date of this study is September 11, 2024, the last date of inspection.

The Study Area is depicted in the map included on the following pages. The Study Area encompasses thirty-nine (39) property/tax parcels and approximately 260.9 acres of property (excluding right of way).

Definitions

Community Improvement District

Chapter 67 of the Missouri Revised Statutes, entitled "Political Subdivisions, Miscellaneous Powers", under Sections 67.1401 to 67.1571, entitled the Community Improvement District Act, allows for the establishment of a Community Improvement District ("CID"). A CID is either a political subdivision or a nonprofit corporation and is a separate legal entity distinct and apart from the municipality or county that creates the district. The CID consists of the area in which the improvements are to be constructed or services are to be provided and is created by petition circulated within the proposed district.

CIDs are established for the purpose of financing a wide range of public-use facilities and establishing and managing policies and public services relative to the needs of the CID. CIDs can impose special assessments, real property taxes, sales taxes, and fees. CIDs can also be combined with other funding methods to pay for additional services and improvements.

If a CID is in a blighted area, or includes a blighted area, it has additional powers and may expend its revenues or loan funds to correct blighted conditions on private property within the CID.

The CID Act states the following with regard to the additional powers conferred upon a CID located in a blighted area:

> 2. *Each district which is located in a blighted area or which includes a blighted area shall have the following additional powers:*
>
> *(1) Within its blighted area, to contract with any private property owner to demolish and remove, renovate, reconstruct, or rehabilitate any building or structure owned by such private property owner; and*
>
> *(2) To expend its revenues or loan its revenues pursuant to a contract entered into pursuant to this subsection, provided that the governing body of the municipality has determined that the action to be taken pursuant to such contract is reasonably anticipated to remediate the blighting conditions and will serve a public purpose.* (67.1461.2, RSMo.)

The CID Act provides the following definition for a blighted area, effective August 28, 2021:

> "Blighted area", the same meaning defined pursuant to section 99.805; (67.1401.2(3) RSMo.)

RSMo. 99.805 provides the following definition for a blighted area:

> *(1)* ***"Blighted Area"****, an area which, by reason of the predominance of insanitary or unsafe conditions, deterioration of site improvements, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, morals or welfare in its present condition and use.* (99.805(1), RSMo.)

Since these definitions are a general overview pertaining to all sites, it is important to clarify their intention as it applies to the proposed community improvement district. According to state law, it is unnecessary for every condition of blight to be present to be eligible as a blighted area. Rather, an area can be qualified as a blighted area when as few as one condition is present. The conditions need not be present in each parcel but must be found in the study area as a whole.

With this understanding, the Blight Study presents an overview of factors within the Study Area including a review of physical, economic, and social conditions sufficient to make a determination of a blighted area. The "Summary of Findings" provides conclusions regarding the analysis and presence of blight in key areas; however, the city of Joplin, Missouri ("City") will make a final determination of a blighted area for the entire Study Area.

Study Methodology

The purpose of this work was to analyze conditions located within the Study Area to determine if it qualifies as a blighted area as defined in the CID Act.

The Blight Study includes a detailed analysis of site, building, and public improvement deterioration. Qualifying blight conditions throughout the Study Area were identified and analyzed on a parcel-by-parcel basis to produce a chart showing blight conditions present in the Study Area.

Data was collected from the City and Jasper County ("County") to document physical blighting conditions as set out in the state statute. Pertinent Geographic Information Systems (GIS) data was obtained through the County and analyzed. Additional supplemental information was obtained through various documents prepared or commissioned by the city, state, and plan proponent.

The Consultant visited the Study Area in August and September 2024. The effective date of the study is September 11, 2024, the last date of inspection.

Previous Blight Determinations

Proposed Community Improvement District

The Study Area encompasses portions of two existing tax increment financing ("TIF") redevelopment plans.

The 1717 Market Place TIF Plan, which was originally approved by the City on January 10, 2005 by Ordinance No. 2005-006 with a finding of blight, includes three (3) property/tax parcels in the Study Area.

The Recovery TIF Plan, which was originally approved by the City on December 1, 2012 by Ordinance No. 2012-230 with a finding of blight was designed to aid redevelopment in an area of 3,100 acres impacted by the EF-5 tornado that struck the City on May 22, 2011. The eastern boundary of the Recovery TIF Plan is the western side of S. Range Line Road between 15th Street and 24th Street immediately north and west of the Study Area – and includes eight (8) property/tax parcels in the Study Area.

It should be noted that the statutory definition of blight was changed effective August 28, 2021, after these two TIF plans were initially approved.

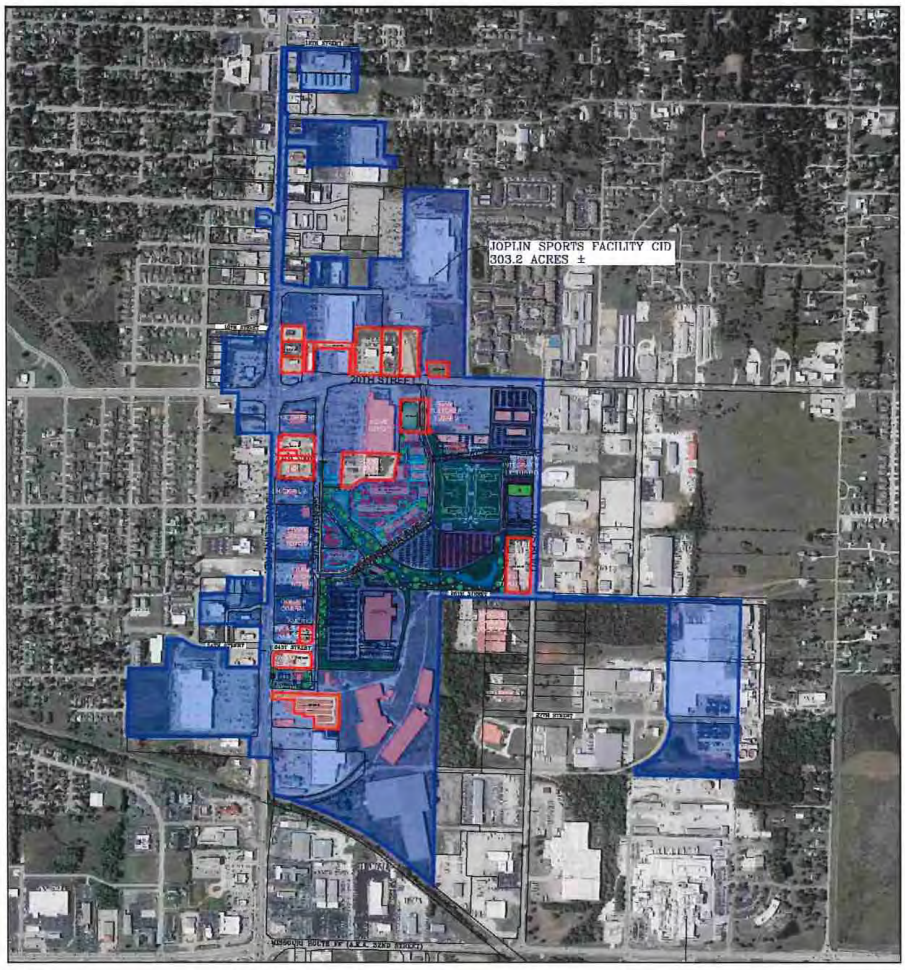

Legal Description

The Study Area consists of thirty-nine (39) property/tax parcels. Specific legal descriptions (abbreviated) of all parcels within the Study Area are included in Appendix A – Property Ownership & Legal Descriptions.

Ownership

The Study Area contains thirty-nine (39) property/tax parcels. All the property/tax parcels are identified by the Jasper County Assessor's office. A complete listing of the property/tax parcels identified by the Jasper County Assessor is included in Appendix A.

Study Area – Boundary Map

Source: OWN, Inc.

Properties outlined in red are excluded from the proposed Joplin Sports Authority CID

Section II

Study Area Overview

Location & Access

The Study Area encompasses approximately 260.91 acres and consists of thirty-nine (39) property/tax parcels. The Study Area is located generally between E. 12th Street on the north, Joplin city limits on the east, Kansas City Southern Railway on the south, and S. Highview Avenue and S. Range Line Road on the west in Joplin, Jasper County, Missouri.

The existing access points to the Study Area are located on the east/west thoroughfares of E. 12th Street, E. 13th Street, E. 17th Street, E. 20th Street, E. 24th Street, E. 25th Street, and E. 27th Street, and the north/south thoroughfares of S. Highview Avenue, S. Range Line Road, S. Geneva Avenue, S. Rex Avenue, and S. Davis Boulevard. The Study Area has quick and easy access to Interstate 44, located slightly less than one mile to the south with a full interchange on S. Range Line Road, and E. 7th Street, a "Principal Arterial," is less than a half-mile north of the Study Area via S. Range Line Road, and provides access to other north/south freeways and interstates. E. 20th Street, classified as a "Minor Arterial", is a major thoroughfare providing east/west access to the central portion of the Study Area, and S. Range Line Road (also designated as Interstate 49 Business Route), which forms much of the western boundary of the Study Area, is classified as a "Principal Arterial" and is a primary commercial corridor in Joplin. As such the major thoroughfares provide the Study Area with excellent access to the regional and local highway/street network.

All streets adjacent and within the Study Area are two-way streets. Beside the two major thoroughfares providing access to the Study Area, E. 13th Street, S. Rex Avenue, S. Davis Boulevard and S. Geneva Avenue are all classified as "Major Collectors." There are no "Interstates," "Freeways," or "Local" thoroughfares within the Study Area." The arterials and collectors provide good access to the Study Area and surrounding areas, except S. Geneva Avenue, which does not extend north past E. 20th Street and terminates just south of E. 24th Street, and E. 13th Street, which only exists east of S. Range Line Road.

Bike routes and trails do not currently exist within the Study Areas and none are currently planned. According to the city's "Master Trail Plan" a trail is planned along E. 20th Street west of S. Range Line Road. Pedestrian access is excellent (along S. Range Line Road, although ADA-compliant warning pads do not always exist at intersections and crosswalks and numerous gaps exist) to poor (nonexistent) within the Study Area. Sidewalks along the building improvements within the Study Area are generally in good condition, but many lack ADA-compliant curb ramps. Most walking takes place across the surface parking lots which are generally in poor to good condition. Where deterioration has occurred, tripping hazards exist.

A demand response transit system, known as the Metro Area Public Transit System (MAPS), serves the entirety of the Study Area and much of the city. MAPS can be scheduled in advance for trips within its service area but has no fixed routes. MAPS operates Monday through Friday.

Land Area
There are thirty-nine (39) property/tax parcels within the Study Area. Per information obtained from the geographic information system of Jasper County, Missouri, the Study Area contains a total of approximately 260.9 acres (excluding right of way).

Topography
The Study Area slopes downward from east to west and from north to south. The highest elevation in the Study Area is just shy of 1,100 feet at the northeast corner of 3877 E. 27th Street (which is the southern right of way of E. 25th Street) and developed by Jasper Products. The lowest elevation in the Study Area is generally between 1,030 and 1,040 feet in the southwest corner of the Study Area at 2600 S. Range Line Road that is developed with Lowe's.

According to a flood plain map from the Federal Emergency Management Agency (FIRM No. 29097C0278E, effective 11/2/2012) a "Regulatory Floodway" (Joplin Creek) crosses the Study Area downhill from the eastern edge of the Study Area at S. Davis Boulevard south of E. 20th Street to the western edge of the Study Area west of S. Range Line Road and just south of E. 20th Street as demonstrated in the FIRM map included in Appendix C. A fair amount of the central portion of the Study Area located south of E. 20th Street is within an area designated as a 100-year flood plain and a few areas have been designated as a 500-year flood plain. Altogether nine of the thirty-nine property/tax parcels are impacted by the Regulatory Floodway and the 100-year flood plain areas.

Utilities
All utilities are available to the properties including electricity, water, sewer, and natural gas.

Zoning
The existing zoning districts include C-1 (Neighborhood Commercial), C-3 (Commercial), C-3-PD (Commercial – Planned District) and M-2 (Heavy Industrial). A chart stating the purpose and intent of each of the zoning classifications as expressed in the Development Code of Joplin, Missouri is included below.

Zoning Classification		Intent*
C-1	**Neighborhood Commercial**	The C-1 district provides small-scale retail, service, civic and employment uses in adjacent to supporting suburban or walkable neighborhoods. This district should be used to create destinations in close proximity to residential neighborhoods, and should be well

		integrated with the supporting neighborhoods character and pattern, whether suburban or walkable.
C-3	**Commercial**	The C-3 district provides wide range retail, service and employment uses at a scale, intensity or in a format that requires a high level of vehicle accessibility and visibility, typically along corridors or other locations not easily integrated with other land uses or development patterns. Planned versions of this district can yield campus or mixed-use district patterns that are oriented to internal open space systems or other focal points of development.
C-3-PD	**Commercial – Planned District**	The intent of the planned zoning districts is to encourage innovation in development, unique and distinctive places, and efficient use of land, buildings and infrastructure. Specifically, planned zoning and development plans to support the flexibility offered through planned zoning should accomplish one or more of the following: 1. Preservation of distinct natural features on the land and integration of them into amenities for the project. 2. Reduction in potential environmental impacts from the development, whether through disturbance of land, location of streets and infrastructure or operation of sites and buildings. 3. Create broader community benefits through the better integration of multiple projects, resulting in designs that could not have otherwise been accomplished through the base zoning districts and standards. 4. Improved public realm designs, including streetscapes, open space, civic spaces and the relationship of buildings and sites to those spaces.

		5. Creation of unique projects and places that are particularly suited for the planned location based on the characteristics of the land or the context and relationship to surrounding areas. Departures from the base standards of all zoning districts may be considered through planned zoning process provided they are based upon a comprehensive and well-integrated development plan for the area. These departures shall not be justified for simply wanting flexibility or deviations from standards based upon a site plan.
M-2	**Heavy Industrial**	The M-2 district provides industrial uses that are generally not compatible with residential and/or commercial activity due to the scale, operation, intensity or impacts of activities, or due to the high level of transportation access and support infrastructure required of the business.

*Joplin, Missouri Development Code

Environmental

Environmental Site Assessments (ESA) of the Study Area were not available, but an environmental covenant for a large portion of the property in the Study Area that is owned by International Paper was provided by the Missouri Department of Natural Resources. As noted within the covenant:

> "From the early 1900s until approximately 1950, underground lead and zinc mining was conducted in and around Joplin. Rex Mining and Smelting Company became the eventual owner of the property currently occupied by the Joplin facility. Long-Bell Lumber Company and American Lumber & Treating Company purchased a portion of the property from Rex Mining in approximately 1937 and began wood treating operations. Long-Bell eventually purchased the entire property and continued operations until approximately 1956 when International Paper acquired the facility. Wood treating began in 1937 using creosote. Pentachlorophenol (PCP) treating solution (diesel and PCP) was added to the process in 1955. In 1979, PCP completely replaced creosote as the treatment solution. Per the Joplin facility's original RCRA permit, there are two closed solid waste landfills (Landfill 1 and Landfill 2) present on the Northern Parcel (Figure 2). Final closure of the landfills was completed in 1991 with the installation of clay caps. On April 30, 2006, International Paper ceased operations at the Joplin facility. International Paper elected to decommission the plant to facilitate potential future industrial use of the property." ("Soil Management Plan – Northern Parcel," March 2018, p. 2)

Soil data obtained from investigations conducted under the direction of the Missouri Department of Natural Resources (MDNR) and the U.S. Environmental Protection Agency (EPA) were compared to EPA's Industrial Regional Screening Levels (RSLs), dated June 2017. As noted in the covenant, based on these comparisons, PCP, benzo(a)pyrene (BaP) and polychlorinated dibenzo-p-dioxin/polychlorinated dibenzofuran (PCDD/PCDF) were identified as constituents of concern (COCs) for soils on the Property.

> "Modified industrial RSLs were calculated for the three COCs to evaluate the need for soil corrective action on the Property. Based on the comparison of soil concentrations to modified industrial RSLs, BaP does not pose an unacceptable risk and no further corrective action for soils is required related to this constituent. However, PCP and/or PCDD/PCDF concentrations remaining in soils at two distinct areas must be managed to address exposure due to direct contact with soil or indirect contact via air transport of soil particulates." ("Soil Management Plan – Northern Parcel," March 2018, p. 2)

A soil management plan has been developed as a part of the environmental covenant to address soil disturbance activities anticipated during development of the property. The soils on the property within the Study Area are generally acceptable for non-residential use only. However, the soils within the footprint of the southernmost Stormwater Terrace and the Framing Building Area must be managed separately from the remainder of soils in the property.

> "The soils at the Property are approved for non-residential use, only. Soils at locations throughout the Property, excluding the southernmost Stormwater Terrace and Framing Building Area, can be disturbed so long as the soils are kept within the boundaries of the Property and appropriate measures are taken to limit soil-runoff and particulate emissions. If grading or other disturbance activities call for removal of soil from those portions of the Property, waste characterization must be completed prior to offsite disposal at an appropriate disposal facility. Soils from the Property may not be re-used for any purpose at any location beyond the boundaries of the Property. ("Soil Management Plan – Northern Parcel," March 2018, p. 5)

> "If disturbance of soils within either the southernmost Stormwater Terrace or the Framing Building Area are planned, a Workplan must be developed to describe the scope and overall footprint of the proposed activities. Soils within these two areas cannot be reused in another location on the Property or offsite. A copy of the Workplan must be submitted to MDNR for review." ("Soil Management Plan – Northern Parcel," March 2018, p. 6)

International Paper is currently performing long-term monitoring, maintenance activities and conducting corrective action remediation activities on the southern portion of the site of about 43 acres. A Final Hazardous Waste Management Facility Part I Permit was issued by the Missouri Department of Natural Resources in October, 2023, and a Final Part II Permit was issued by the U.S. Environmental Protection Agency in October, 2023. Both permits are scheduled to expire in 2033.

As part of the post-closure care, International Paper is required to operate a groundwater remediation system until August 2045, or until they can show that the contaminant levels have been below the maximum concentration limits specified in their hazardous waste permit for three consecutive years. The system has been in operation since 1993. Potential off-site surface water and groundwater contamination is a concern. International Paper is conducting a RCRA Facility Investigation to define the horizontal and vertical extent of any contamination. If any corrective action activities are necessary, they will be based on the investigation results.

Real Estate Taxes
A five-year history of the assessed values within the Study Area is included in the appendix.

The data in Appendix B is the resulting assessed value of the Assessor's opinion of Market Value for each of the properties within the Study Area. All property is supposed to be re-assessed in odd-numbered years, except that new construction (including remodeling) can be assessed in any year.

To determine assessed value the assessment ratio for commercial and industrial properties is 32%. The real estate levy for 2023 in the Study Area was $5.6344 per $100 of assessed valuation. In 2023 (the most recent year in which real estate taxes were collected), the assessed value of the Study Area was $20,765,004, generating a total of $1,170,035.04 in billable real estate taxes. Assessed values within the Study Area increased by 9.97% between 2019 and 2023 after increasing by as much as 4.44% in 2021 and declining by 0.10% in 2022. All real property tax payments are current as of the date of this study.

The total assessed value of the Study Area increased by 3.43% in 2024, although the values have not been certified and could change. As of the date of this study, assessed values increased in the Study Area between 2019 and 2024 by 13.74%.

One property in the Study Area is owned by the city of Joplin and is tax exempt.

Existing Improvements
The Study Area encompasses approximately 260.9 acres (excluding right of way) and consists of thirty-nine (39) property/tax parcels. The Study Area is located generally between E. 12th Street on the north, Joplin city limits on the east, Kansas City Southern Railway on the south, and S. Highview Avenue and S. Range Line Road on the west in Joplin, Jasper County, Missouri.

The Study Area consists of 115.75 acres (excluding right of way) on nine property/tax parcels that are vacant, unimproved (or formerly improved) commercial/industrial property.

The largest parcel in the Study Area, at 93.48 acres, was formerly utilized as a paper mill, most recently by International Paper Company, who then closed the facility in 2006, and has been undergoing environmental remediation and monitoring since the closure.

The remainder of the Study Area is developed with commercial/industrial uses in thirty-one (31) primary buildings on twenty-eight property/tax parcels, mostly one story but as high as three

stories, and include a former Red Hot and Blue restaurant (2601 S. Range Line Road) that has been closed since October 2022. The other properties are occupied by operating businesses that include a mix of manufacturing, office, retail, healthcare, and restaurants. One building, a quick-service restaurant, was completed in 2024, and another building, a dispensary, is currently under construction.

According to the Jasper County Assessor, there is about 1,483,993 square feet of existing commercial/industrial space developed within the Study Area, of which 824,757 square feet of space (55.6% of the total amount of space) is in good condition. According to the Jasper County Assessor, of the 803,947 square feet of space constructed prior to 2011, 372,955 square feet is in good condition, or 46.4% of the space. Of the 680,046 square feet of space constructed in 2011 or later, 451,761 square feet is in good condition, or 66.4% of the space.

Much of the Study Area was impacted by the 2011 tornado, but has not experienced the same level of investment since then as the S. Range Line Road corridor. Of the thirty-two buildings that are in operation, twenty have been constructed since 2011. The average age of the improvements in the Study Area is approximately 20 years, with an average year built of 2004. The buildings range in condition from poor to excellent, with most in good condition. The exterior site improvements are generally in poor to fair condition.

Billboards

Two double-sided billboards exist within the Study Area at 1502 S. Range Line Road and at 2014 S. Range Line Road.

Neighborhood Demographics

Population & Household Income

The following provides population and income trends within a one-, three-, and five-mile radius from the approximate center of the Study Area with a latitude of 37.065544 and longitude of -94.472882, which is in the middle of the International Paper property.

	Population			
Lat. 37.065544, Long. -94.472882	**Historic**		**Forecast**	
Radius	**2010**	**2020**	**2024**	**2029**
One Mile	4,439	4,717	4,642	4,638
percent change (1 mi)		+6.3%	-1.6%	-0.1%
change from '10 (1 mi)		+6.3%	+4.6%	+4.5%
Three Mile	37,462	38,345	38,983	39,772
percent change (3 mi)		+2.4%	+1.7%	+2.0%
change from '10 (3 mi)		+2.4%	+4.1%	+6.2%
Five Mile	63,551	66,030	67,206	68,508
percent change (5 mi)		+3.9%	+1.8%	+1.9%
change from '10 (5 mi)		+3.9%	+5.8%	+7.8%
Joplin	50,808	51,762	52,512	53,512
percent change		+1.9%	+1.4%	+1.9%
change from '10		+1.9%	+3.4%	+5.3%

Source: ESRI; Sterrett Urban, LLC

The population figures indicate a rate of growth within one mile of the Study Area (+6.3%) that is more than triple that of the city and at least one-and-a-half times the rate of growth within three and five miles of the Study between 2010 and 2020 (2.4%-3.9%). Despite the period of growth nearest the Study Area between 2010 and 2020, population growth is forecasted to have declined in 2024 and continue to do so through 2029, albeit slightly. Growth within three and five miles of the Study Area, and growth within the city of Joplin, is forecast to have increased at similar rates of 1.4%-1.8% between 2020 and 2024, and 1.9%-2.0% between 2024 and 2029. The greatest rate of growth between 2010 and 2029 is projected to occur within three and five miles of the Study Area (+3.7%-3.8%), while the area nearest the Study Area is projected to lose population (-1.7%). The city grew at 3.4% over the same time.

	Median Household Income	
Lat. 37.065544, Long. -94.472882 Radius	**Forecast**	
	2024	**2029**
One Mile	51,024	54,597
chg. from '23 (1 mile)		+7.0%
Three Mile	50,235	54,744
chg. from '23 (3 mile)		+9.0%
Five Mile	52,961	58,237
chg. from '23 (5 mile)		+10.0%
Joplin	51,025	55,628
chg. from '23		+9.0%

Source: ESRI; Sterrett Urban, LLC

The median household income forecasted by ESRI for 2024 and 2029 within five miles of the Study Area is greater than the median household income ESRI forecasts for the city of Joplin. The median household income within one mile and three miles of the Study Area in 2024 and 2029 is forecasted by ESRI to be lower than the median household income for the city. The rate of income growth nearest the Study Area is also forecast to be lower than that of the city between 2024 and 2029 (7.0% compared to 9.0% for the city).

Unemployment

The most recent unemployment data for the Study Area is for the City of Joplin, Missouri. The following data was provided by the Missouri Economic Research and Information Center (MERIC):

Civilian Labor Force – Joplin, Missouri
July 2024 *(not seasonally adjusted)*

Labor Force	Labor Force Employed	Labor Force Unemployed	Percentage Unemployed
25,592	24,397	1,195	4.7%

Source: Missouri Economic Research and Information Center (MERIC)

According to the Bureau of Labor Statistics, the preliminary unemployment rate for the Joplin, MO metropolitan statistical area in July 2024 was 4.7%.

According to the Federal Reserve, an unemployment rate of 5.0% - 5.2% can generally be considered "full employment."

Section III

Determination of Study Area Conditions

Significant findings of the Joplin Sports Facility Community Improvement District Blight Study are presented in the discussion which follows. These findings are based on a review of documents and reports, interviews, field surveys, and analyses conducted in August and September 2024. Properties and buildings, along with public improvements adjacent to the properties, were evaluated and deficiencies noted. As previously explained, the purpose of this study was to determine whether conditions as defined by the CID Act in RSMo. 99.805(1) of the Missouri State Statute, as amended, exist in the Study Area.

RSMo. 99.805(1)
The principal blighting factors reported here and in line with the respective statutory definitions include: insanitary or unsafe conditions, deterioration of site improvements, and the existence of conditions which endanger life or property by fire and other causes. The Appendix section of this report includes a table exhibiting the blighting factors present at each property parcel.

Blight Defined
As presented in Section I, blight is defined as follows with respect to the CID Act:

> *(1)* ***"Blighted Area"****, an area which, by reason of the predominance of insanitary or unsafe conditions, deterioration of site improvements, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, morals or welfare in its present condition and use.* (99.805(1), RSMo.)

Several court cases provide additional direction in the consideration of blight:

- It is not necessary for an area to be what commonly would be considered a "slum" in order to be blighted. Parking Systems, Inc. v. Kansas City Downtown Redevelopment Corporation, 518 S.W.2d 11, 15 (Mo. 1974).
- An otherwise viable use of a property may be considered blighted if it is an economic underutilization of the property. Crestwood Commons Redevelopment Corporation v. 66 Drive-In, Inc., 812 S.W.2d 903, 910 (MO.App.E.D. 1991).
- It is not necessary for every property within an area designated as blighted to conform to the blight definition. A preponderance of blight conditions is adequate to designate an area for redevelopment. Maryland Plaza

Redevelopment Corporation v. Greenberg, 594 S.W.2d 284, 288 (MO.App.E.D. 1979).

- In order to make a finding of blight for a defined redevelopment area, the total square footage of the area is to be considered and not a preponderance of the individual parcels. Allright Properties, Inc. v. Tax Increment Financing Commission of Kansas City, 240 S.W.3d 777 (MO.App.W.D. 2007).

Cause Component 1: Insanitary or Unsafe Conditions

There are numerous locations within the Study Area exhibiting unsafe or insanitary conditions. The most prevalent and/or impactful include the presence of environmental liabilities on the International Paper Company property (as previously detailed), and as noted previously the presence of floodways, 100-year floodplains and stormwater mitigation areas impact nine of the thirty-nine properties. Also unsafe is trash/debris, the deterioration of pavement throughout the surface parking lots and drive aisles which creates tripping hazards, faded or nonexistent directional signage and pavement markings in the parking lots and drive aisles, and overgrown vegetation, particularly on those properties along S. Geneva Avenue and along S. Davis Boulevard.

Noncompliance with the Americans with Disabilities Act (ADA) is evident in some places and primarily includes nonexistent signage, substandard curb ramps, and nonexistent warning pads on sidewalks at intersections and crosswalks.

Examples of this condition are shown below. Additional photographs of deteriorated pavement are included in *Cause Component 2: Deterioration of Site Improvements.*

It should be noted that odors emitted by certain industrial properties in the vicinity has brought about citations from the Missouri Department of Natural Resources for violating air pollution regulations. Jasper Products, whose plant is in the Study Area, has had such problems in the past. Currently no complaints have been filed recently with the Missouri Department of Natural Resources.

The Study Area exhibited insanitary or unsafe conditions and is a major contributor to blight. Twenty-six of the thirty-nine properties in the Study Area exhibited insanitary or unsafe conditions, or almost 77% of the Study Area.

The remainder of this page left intentionally blank

International Paper Co. – looking west – overgrown vegetation; uneven pavement; contaminated property

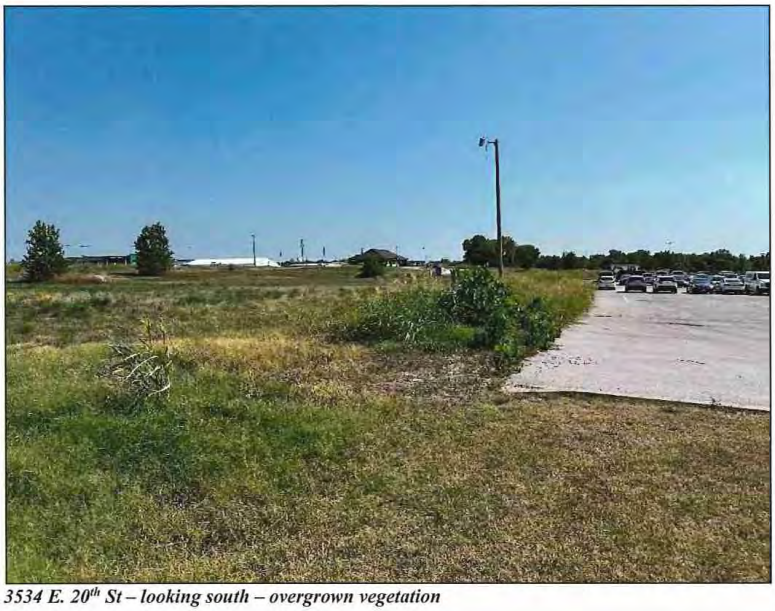

Planet Fitness pad site – looking northwest – overgrown vegetation; deterioration of drive aisle

Planet Fitness pad site – looking west – lack of pedestrian circulation; overgrown vegetation

Cause Component 2: Deterioration of Site Improvements

The condition of deterioration of site improvements was primarily established through field survey work and observation of exterior physical conditions within the Study Area. Building deterioration rating criteria considered included the following: primary structure (roof, walls, foundation); secondary structure (fascia/soffits, gutters/downspouts, exterior finishes, windows and doors, stairways/fire escapes); and exterior structure (mechanical equipment, loading areas, fences/walls/gates, other structures).

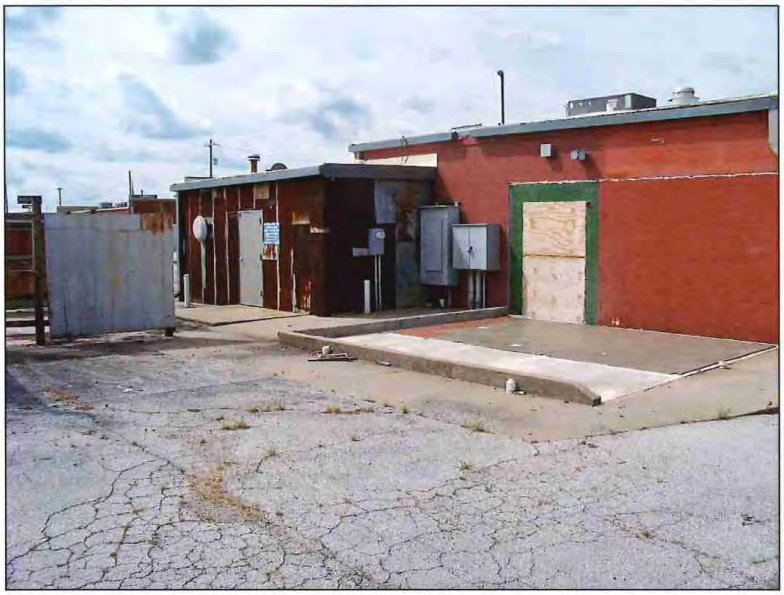

The most common example of structural deterioration found in the Study Area included the failure of finishes. The following photos are examples of structural deterioration in the Study Area.

3110 E. 20th St – looking west – failure of finishes

2601 S. Range Line Rd – looking northeast – failure of finishes; deterioration of pavement

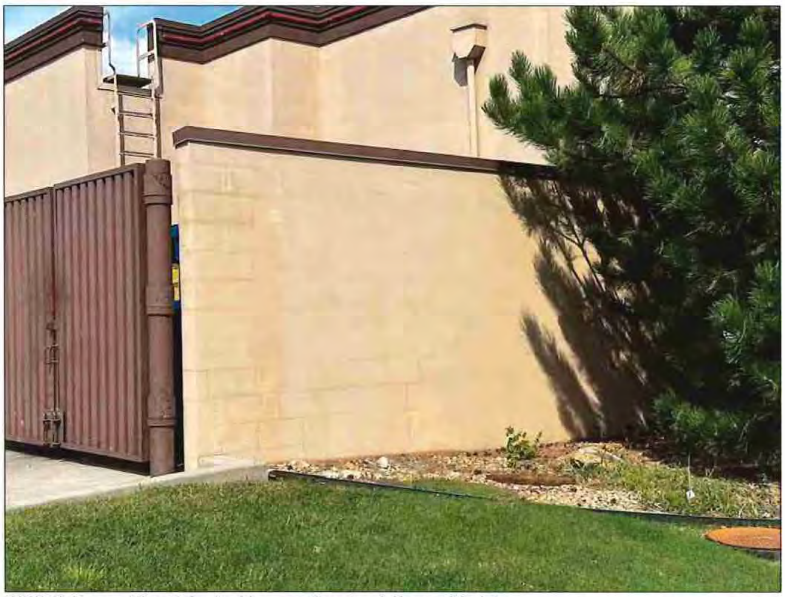

2601 S. Range Line Rd – looking southwest – failure of finishes; deterioration of doors, wall veneer

2120 S. Davis Blvd – looking east – deterioration of gutter, drive aisle and parking area; failure of finishes

1315 S. Range Line Rd – looking north – failure of finishes

1930 S. Range Line Rd – looking northeast – failure of finishes

2600 S. Range Line Rd – looking west – deterioration of masonry

In addition to structural deterioration, a variety of blight conditions was observed within the Study Area related to the deterioration of the site and non-primary improvements. These conditions which negatively affect the appearance and utilization of the area, most commonly include deterioration of parking surfaces, driveways, equipment, fences, and unenclosed trash dumpsters.

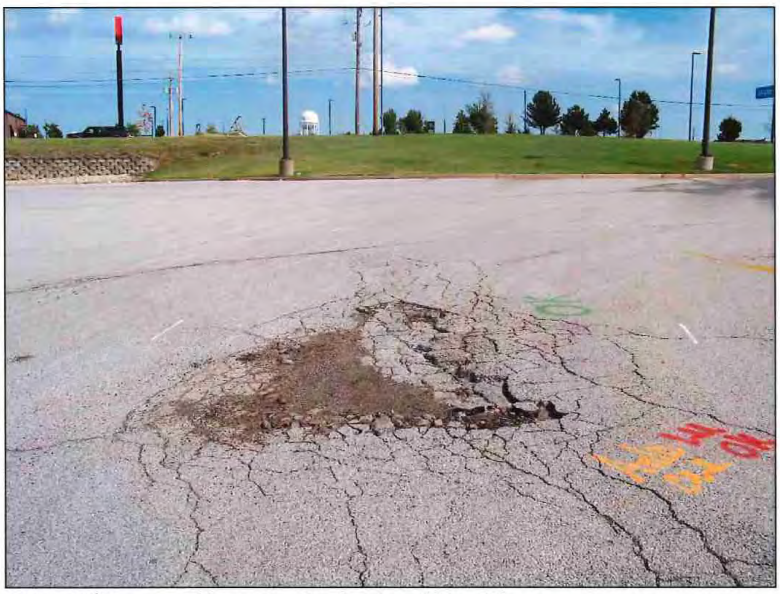

Examples of site deterioration problems are found throughout the Study Area, as shown in the photographs below.

International Paper Co. – looking northwest – deterioration of ancillary building

International Paper Co. – looking north – deterioration of street

3110 E. 20th Street – looking north – deterioration of drive aisle

Planet Fitness pad site – looking north – deterioration of drive aisle and surface parking lot

2601 S. Range Line Rd – looking west – deterioration of surface parking lot

2601 S. Range Line Rd – looking east – deterioration of drive aisle

2601 S. Range Line Rd – looking east – deterioration of surface parking lot (gravel)

2415 S. Range Line Rd – looking north – deterioration of surface parking lot

2021 S. Range Line Rd – looking south – deterioration of surface parking lot; lack of landscaping

2127 S. Range Line Rd – looking south – lack of landscaping; deterioration of wall

International Paper Co. – looking south – deterioration of fence; overgrown vegetation

2407 S. Range Line Rd – looking west – deterioration of fence

2600 S. Range Line Rd – looking south – deterioration of fence

International Paper Co. – looking south along Geneva Ave – deterioration of fence; lack of landscaping

Planet Fitness pad site – looking southwest – deterioration of infrastructure

S. Geneva Ave – looking south – deterioration of infrastructure

The Study Area exhibits deterioration of site improvements. The most common conditions included the deterioration of surface parking and drive aisle pavement, equipment, and failure of finishes.

Cause Component 3: Existence of Conditions which Endanger Life or Property by Fire and Other Causes

Fire safety and crime information pertaining to the parcels in the Study Area indicated no reported incidents within the Study Area in the past twelve months.

As noted previously environmental liabilities exist within the Study Area on that property/tax parcel currently owned by International Paper that endanger life and/or property.

The International Paper property and seven other properties are impacted by a floodway that, at times of certain weather events, endanger life and/or property.

The existence of conditions which endanger life or property by fire and other causes were identified within the Study Area and are a major contributor to blight in the Study Area.

Summary of Blighting Factors

The following table summarizes the three blighting factors analyzed during the inspection of property within the Study Area.

As evidenced from the table below, the parcels within the Study Area satisfy each of the three blighting cause factors, with more than 50% of the Study Area satisfying the factors of Insanitary or Unsafe Conditions and Deterioration of Site Improvements. Parcels that exhibit a predominance of blighting factors cover 58.9% of the Study Area.

Joplin Sports Facility
Community Improvement District
Summary of Blighting Factors

Study Area	Parcels	Pct.	Area (acres)	Pct.
Total	39	100%	260.91	100%
Blighting Factors				
Insanitary or unsafe conditions	26	66.7%	199.84	76.6%
Deterioration of site improvements	30	76.9%	236.45	90.6%
Existence of conditions which endanger life or property by fire and other causes	9	23.1%	120.42	46.2%
Parcels with Predominance of Blighting Factors	**14**	**35.9%**	**153.57**	**58.9%**

Effect Component 1: Retards the Provision of Housing Accommodations
As noted previously, the environmental liabilities that exist at the International Paper Company property has resulted in the Missouri Department of Natural Resources and the U.S. Environmental Protection Agency prohibiting residential use as a future land use.

Other vacant property/tax parcels have not been developed since the tornado impacted the Study Area in 2011, although millions of dollars of investment have occurred in multifamily and commercial development in the vicinity of the Study Area. Underlying factors have impacted the ease with which the vacant properties in the Study Area could be developed, due largely to flooding issues and environmental liabilities.

The blighting conditions within the Study Area have retarded the provision of housing accommodations.

Effect Component 2: Constitutes an Economic or Social Liability
The following are generally considered economic characteristics of blighted areas:

- Reduced or negligible income;
- Impaired economic value;
- Depreciated values;
- Impaired investments;
- Negligible income

The Missouri Supreme Court has determined that "the concept of urban redevelopment has gone far beyond 'slum clearance' and the concept of economic underutilization is a valid one."

As indicated in Appendix B: Property Valuation and Taxes, the assessed value of the Study Area has increased by 9.97% between 2019 and 2023, and by 2.00% in 2023. In comparison, assessed valuation of commercial real estate in Jasper County increased by 20.0% between 2019 and 2023 and increased 5.3% in 2023. Growth is occurring in Jasper County and in Joplin, and has taken place within the Study Area since 2011, but much of the Study Area remains vacant and in need of reinvestment.

Economic underutilization of the property within the Study Area is evident in the following manner:

- Vacant land in the Study Area is excessive. While one parcel is utilized as stormwater mitigation, other vacant land that could be developed is excessive and has a negative impact on the remainder of the Study Area. That vacant land includes the International Paper Company, whose soil management plan adds considerable cost to development, particularly since a fair share of the property is in a floodway. The lack of development on these parcels, when growth is taking place within the adjacent S. Range Line Road corridor, is an indication that blight exists.

- The older improved properties located in the Study Area, due to physical condition, utilization, and age, as evaluated by the Jasper County Assessor, when compared to comparable properties indicate assessed values of the improvements are generating reduced tax revenue to the various taxing jurisdictions and are an indicator of blight. The restaurant on S. Range Line Road has been vacant for about two years and is generating much less in tax revenue than when it was operating. One other parcel, used to mitigate stormwater drainage, is owned by the city and does not generate any tax revenues for the taxing jurisdictions.

The presence of unsafe conditions, particularly those that endanger life, is a social liability. That includes the contaminated International Paper Company property, the properties impacted by the flood zone, as well as those parcels that violate the city's property nuisance code, which are evident primarily along S. Geneva Avenue and S. Davis Boulevard.

The redevelopment of the area has been hindered primarily by the deterioration of site improvements that has also resulted in unsafe conditions throughout the Study Area and the existence of environmental liabilities and a floodway. Addressing the deterioration and unsafe conditions is a cost that is prohibitive for a private sector developer (or property owner) to take on independently and remain competitive in the market. Doing nothing will only result in further deterioration of building and site improvements and little action with respect to the contaminated vacant land, resulting in the potential for underperformance with respect to sales tax income and property assessments. For the existing businesses to provide a safe environment for customers and employees, and to continue to grow and attract new economic activity to the Study Area and surrounding areas, some form of external financial assistance that is not currently being utilized will be required to make improvement of the Study Area economically feasible.

Economic underutilization – deteriorating site improvements, underutilized property, unsafe conditions, and the lack of development – in a high-traffic location on S. Range Line Road – indicates the Study Area is blighted.

Effect Component 3: Constitutes a Menace to the Public Health, Safety, Morals or Welfare
The environmental liabilities and the flood zone are a menace to public health and safety, as are those properties that violate Joplin's nuisance code.

Together, those properties make up most of the Study Area, and as a result the Study Area is a menace to the public health and safety of the community.

Conclusion
A predominance of the components that make up the definition of blight per the CID Act (RSMo. 99.805(1)) was present in the proposed Joplin Sports Facility Community Improvement District.

The dominant blighting factor is the unsafe conditions caused by environmental liabilities and the impacts of the flood zone, in addition to physical deterioration of site improvements throughout the Study Area. The low assessed values caused by the presence of environmental contamination and the low assessed values of those properties in the remainder of the Study Area due to the deterioration of improvements, and the underutilization of those properties, indicate blight is present within the proposed Joplin Sports Facility Community Improvement District. The deterioration of site improvements and the presence of unsafe/insanitary conditions violates the city's nuisance code, creating a social liability within the community.

The above combine to create economic underutilization and an inability to pay reasonable property taxes, hinder housing accommodations, and endanger life, thereby creating an economic and social liability for the City and other taxing jurisdictions, and constitutes a menace to the public health and safety of the community.

Therefore, the Consultant has determined that the proposed Joplin Sports Facility Community Improvement District, as of September 11, 2024, is a "blighted area" according to the definition provided in the CID Act, and hinders housing accommodation, constitutes an economic liability, social liability, and is a menace to public health and safety of the community in its present condition and use.

Certification / Assumptions & Limiting Conditions / Qualifications

Certification

I certify that, to the best of my knowledge and belief…

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased professional analyses, opinions, and conclusions.
3. I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest with respect to the parties involved.
4. I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
5. My compensation is not contingent on an action or event resulting from the analyses, opinions, or conclusions in, or the use of, this report.
6. I made a personal inspection of the property that is the subject of this report on August 26, 2024 and on September 11, 2024.
7. This study is not based on a requested result or a specific conclusion.
8. I have not relied on unsupported conclusions relating to characteristics such as race, color, religion, national origin, gender, marital status, familial status, age, receipt of public assistance income, handicap, or an unsupported conclusion that homogeneity of such characteristics is necessary to maximize value.

Patrick Sterrett
Sterrett Urban, LLC

Assumptions & Limiting Conditions

This Blight Study is subject to the following limiting conditions and assumptions:

1. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are Sterrett Urban's unbiased professional analyses, opinions, and conclusions.

2. Information provided and utilized by various secondary sources is assumed to be accurate. Sterrett Urban cannot guarantee information obtained from secondary sources.

3. The nature of real estate development is unpredictable and often tumultuous. In particular, the natural course of development is difficult to predict and forecast. Sterrett Urban deems our projections as reasonable considering the current and obtained information.

4. Sterrett Urban has considered and analyzed the existing conditions concerning the subject property within the redevelopment area. We have considered these existing conditions when forming our analyses and conclusions. However, it should be understood that conditions are subject to change without warning, and potential changes could substantially affect our recommendations.

5. Our analyses, opinions and conclusions were prepared in conformance with the Code of Professional Ethics and Standards of the American Institute of Certified Planners.

Patrick Sterrett, AICP

STERRETTURBAN LLC

Urban Planning & Development Services

Sterrett Urban LLC is an urban planning and real estate development advisory firm which counsels an array of public and institutional clients, as well as private investors and developers, interested in bringing development projects and revitalization efforts to fruition. **Sterrett Urban LLC** has unmatched experience and expertise providing redevelopment, community planning, and economic development strategies and implementation services for a wide variety of product types and settings.

The firm, founded in 2006, is led by Patrick Sterrett, a certified urban planner who has more than twenty-five years of experience forging partnerships, managing complex real estate development projects, and creating vibrant, sustainable urban plans and designs. Current and recent work includes creating a development program and financing strategies for a $20 million mixed-use project on Troost Avenue; developing a strategy to unwind the original financing framework Mr. Sterrett helped originate for the LAMP nonprofit campus that involves tax abatement, New Markets tax credits, and Historic Preservation tax credits; land use planner for the redevelopment of the three million square foot former Bannister Federal Complex; continued management of two community improvement districts originally formed by Mr. Sterrett for others; and the development of financing strategies for a $20 million charter school in Kansas City, Missouri and a $5.5 million social service center and health clinic in Kansas City, Kansas, both of which may include the use of tax credits and tax abatement.

Prior to forming **Sterrett Urban LLC** in 2006, Mr. Sterrett spent eleven years at the Economic Development Corporation of Kansas City, Missouri (EDC) and initiated and/or managed for the public sector some of the largest pioneering redevelopment projects in recent memory in Kansas City and in the country. During his tenure at the EDC, Mr. Sterrett provided staffing to each of the redevelopment agencies and also served as Executive Director of the Port Authority, where he managed land development, the negotiation of redevelopment agreements and creation of mixed-use development programs for the Kansas City Riverfront, former Richards-Gebaur Airport as an intermodal hub, a mixed-use village within the Columbus Park Neighborhood, and creation/implementation of a redevelopment strategy for the Crossroads Arts District.

Mr. Sterrett's work has been featured in local and national publications, and his work in the Crossroads Arts District and the Power & Light District in Kansas City has been recognized by the International Economic Development Council as exemplary of the most advanced redevelopment methods to revitalize distressed areas, including brownfields.

Mr. Sterrett earned a Bachelor Architecture and a Master of Urban Planning with a concentration in housing and community development from the University of Kansas.
