Question #1: What brand or manufacturer was used to write the specifications?

Answer #1: *With this being a federally funded project, it is required to omit all brand names. Bidders need only provide product to meet the minimum specifications listed.*

Question #2: Is the finish on the desks to be Espresso or Charcoal?

Answer #2: *Laminate wood look is Espresso Finish. Finish has a charcoal accent line under worksurface.*

Question #3: Or does the charcoal accent line refer to the 3mm edge banding?

Answer #3: *See answer to Question #2*

Question #4: Will you require identifying slight differences in dimensions? For example, FRIA is 65"W x 29.5" deep x 29.5" high. Our desk may be 66"W x 30"deep x 29"high

Anwer #4: *Slight differences will be accepted. Please note any size differences so we can verify we are still maintaining critical dimensions around the furniture.*

Question #5: Desk finish calls for commercial grade laminate. Do you want high pressure or low pressure (thermally fused) laminate?

Answer #5: *Low Pressure - The furniture it was specified around is thermofused melamine laminate.*
