NOTE: Taxes are collected by the Department of Revenue approximately 30 days following the month in which taxable sales occur. Collections are remitted to the City by the 10th of each month for the prior months reported sales. Effective January 1, 2000, the State of Missouri Department of Revenue increased the threshold for monthly filing requirement from $250 to $500 for state tax collected.

Sales tax figures include the TIF sales tax collections. 50% of the TIF sales tax collections have to be remitted by the City to the TIF developer after being received from the State.

Actual budgeted increase is calculated by using the prior year actual collections compared to the budgeted amount.

This information is reported on a cash basis, while the accounting records are reported on an accrual basis.

*Percentage changed from 47% to 38% beginning with the June 2007 payment to the TIF developers due to the additional General Sales Tax for Police & Fire.

**A 5% fee is held out of the payment to the TIF developer as an administrative expense. The 5% fee goes into the General Fund as a revenue to the City. Administration fee dropped to 3% November 2007 (FY 2008).

Note: Total collections are shown on the historical tax receipts report. The amounts above represent 50% of sales tax collections collected from the TIF districts. The above amounts have been remitted to the TIF developers and represent date paid to the developer and not the date collected from the state.
