City Update – June 3, 2024 **View PowerPoint Slides**

The curbside tree limb pick-up started today for residents affected by the May 6 tornado. Just a couple of reminders:

- Tree limbs and vegetation must be at the curbside. City crews and contractors cannot enter private property to get tree limbs.
- Please do not place tree or vegetation debris on the streets or sidewalks.
- This is a one-pass service. There will not be call backs to return to an area.
- Please move cars from curbs if possible. If a car has to remain on the street, please do not park it in front of any tree limb piles so crews can remove vegetation.
- Residents are reminded that the Tree Limb Drop-Off site will be open on Friday June 14 and Saturday, June 15 from 8:30 a.m. to 3 p.m. The site is located at 1702 N. Schifferdecker. There is no charge for this drop-off.
- To view the map of the tornado-impacted area that will be covered, go to the City's website at www.joplinmo.org/storm-clean-up

3D Street Painting is coming to Joplin – in a big way.

Visit Joplin has partnered with the World Street Painting Foundation of the Netherlands to create a one-of-a-kind celebration of the Route 66 Centennial.

Over the next three years, 28 international and five U.S. artists will create what will become the world's largest collection of 3D Street Paintings -- 33 paintings in all.

It all begins on Wednesday, June 5th, when three artists will introduce their craft to Joplin, right along Route 66, on the grounds of the Harry M. Cornell Arts and Entertainment Complex.

The artists will create their 3D art on June 5, 6, and 7, and the public is invited to experience the completed art on Saturday, June 8.

In fact, the public is encouraged to visit the artists daily to see how a 3D image is created and brought to life. So stop by the Cornell Complex located on 7th Street, between Joplin and Wall Street.

It all begins June 5th, the World Street Painting Festival – *3 Years and 33 3D Paintings* - honoring 100 years of the Mother Road.

The City invites **citizens to view conceptual plans for the new Dover Outdoor Recreation Area at a Public Meeting this Thursday, June 6.** The meeting will be **held from 5:30 to 7:30 p.m. at the Joplin History and Mineral Museum, located at 504 S. Schifferdecker,** within Schifferdecker Park, just east of the golf course clubhouse.

This new park will feature biking activities for all ages and skill levels, such as a BMX-style pump track, a children's bike playground, and single-track mountain bike trails throughout. Those attending the meeting can view renderings of initial plans and provide their input about this new park's proposed features and layout. This informal public meeting provides a come-and-go format for the public to view informational displays, visit with City staff about the park and ask questions about the project.

Last year Missouri Governor announced that **the Dover Outdoor Recreation Area (DORA)** will receive $1.4 million through the Local Tourism Asset Development Grant Program. DORA was initially introduced to voters as a project within the Parks and Stormwater Sales Tax Renewal efforts in August 2021. The grant funding will offset some of the costs, and the City will provide a match of approximately $1.7 million.
