Short-term Rental Permit Applicability

For residential zoning districts AG through M-P, no short-term rental can be located within 200 feet of another short-term rental. For commercial zoning districts MUC through M-1, no more than 2 short-term rentals can be located on a single property.

City Staff takes final action on short-term rental permit requests.

Short-term Rental Permit Procedures

The applicant must submit a completed application to the Planning Division in person or via email. A completed application will include all required attachments and $550 filing fee.

The City will mail notice to all property owners within 185 feet, as indicated by county tax records and post a sign on the subject property. Individuals within 185 feet of the property can file official protest petitions against the application within 15 days of postmark on the mailed notice. If more than 30% of the land area within 185 feet protests, the permit is automatically denied.

Planning staff will review all materials submitted including the application, attachments, and any protest petitions received. A final decision on an application will be made within 30 days of the day the application was received.
