II. EVALUATION PROCEDURE AND FACTORS TO BE CONSIDERED IN THE EVALUATION PROCESS:

Qualifications of Proposers

The Proposer may be required before the award of any contract to show to the complete satisfaction of the City that it has the necessary facilities, ability, CDBG-DR understanding, staffing, and financial resources to provide the services specified herein in a satisfactory manner.

The Proposer may also be required to give a past history and references in order to satisfy the City in regard to the Proposer's qualifications. The Proposer will need to be familiar with both CDBG–DR grant awards and the specific award conditions therein. The City may make reasonable investigations deemed necessary and proper to determine the ability of the Proposer to perform the work, and the Proposer shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any offer if the evidence submitted by, or investigation of, the Proposer fails to satisfy the City that the Proposer is properly qualified to carry out the obligations of the contract and to complete the work described therein. Evaluation of the Proposer's qualifications shall include:

A. The knowledge, ability, capacity, skill, financial and other necessary resources to perform the work or provide the service required;

B. The ability of the Proposers to perform the work or provide the service promptly or within the time specified, without delay or interference;

C. The character, integrity, reputation, judgment, experience, and efficiency of the Proposer;

D. The quality of performance of previous contracts or services; AND

E. Overall costs of provided services.

A selection committee made up of qualified City staff shall review and evaluate all responses. The selection committee will have only the response to the solicitation to review for selection of finalists. It is therefore important that respondents emphasize specific information pertinent to the work. Final authority of the selection ultimately lies with the Joplin City Council and is subject to not being in agreement with the recommendation from the selection committee.

Factors to be considered are as follows:

A. Company Profile: (10 Points) Scoring will emphasize management, organization, availability of key staff, skill, financial and other necessary resources to perform the work or provide the services required in timely manner.

Respondents must provide a listing of the personnel who would be assigned to this project, including an explanation of the project team's organizational structure and each person's area

of responsibility. CVs or resumes for each professional assigned to this project are also required. Please include an organizational chart of the local team and any associated decision-makers part of any review or approval process within your firm.

B. Commencement: (10 Points) Scoring will emphasize ability to commence services and familiarity with CDBG regulation promptly or within the time specified, without delay or interference. Familiarity with both CDBG-DR awards and associated projects and the ability to coordinate with these projects will be considered.

C. Experience: (20 Points) Scoring will emphasize direct CDBG (not exclusively CDBG-DR) program experience and success with the specific items listed in the proposal as well as a variety of programs including all aspects of CDBG-DR programs, character, integrity, reputation, judgment, and efficiency of the Proposer.

Respondent must provide three (3) examples of experience in management of programs similar to those found in the Joplin CDBG DR Recovery Project Plans including the name, address, and telephone number of a client contact for each project. Examples proving the ability to coordinate multiple projects within administration team should be included and will be considered in the scoring. Scoring will also emphasize disaster recovery experience which can include the firm's results of past governmental review and monitoring and/or direct team experience.

D. Approach Strategy: (20 Points) Scoring will emphasize project approach for each service requested and proven implementation and/or management strategies by the team for the local City government. Services requested are found in the "Specifications for Services Requested" section of this RFP. Due to the complexity of the large numbers of projects combined between the City's CDBG DR Phase I and CDBG DR Phase II projects along with all other disaster activities, the City will also be strongly considering firms with a proven Project Management Software that can be made available to City Staff with appropriate training. Responders must have sufficient and qualified staff immediately available to contract solicitations and to enter into and manage any components targeted by the RFP.

Additionally, please explain the local presence that your firm will have in the community and assigned staff frequency in situ. It will be paramount to have firm expertise available for staff.

E. **References: (15 Points)** Scoring will emphasize quality of references. Also the quality of performance of previous contracts or services.

F. Price: (25 Points) Proposers shall provide hourly information by title/function assigned to the project as shown below:

After the selection process, the Selection Committee shall negotiate on behalf of the City of Joplin, a contract based on the fees and fee structure as submitted in the proposal. The City of Joplin reserves the right to delete elements or expand the scope of the contract based on the negotiated fees at the time of contract letting.
