---

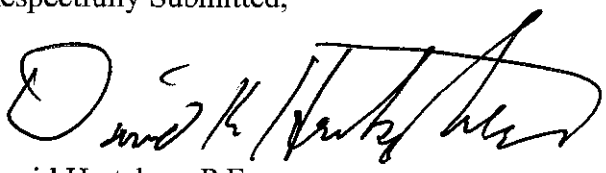

1. Is the 5% bid bond solely based on the grinding price or is it a combination of the grinding and hauling price?

    a. The Bid Bond price should be 5% of the total price. If the bidder selects Option #1, the Bid Bond should be 5% of the total price to grind the limbs into wood chips to be left at the site.

    b. If the bidder selects Option #2, the Bid Bond should be 5% of the total price to haul out whole tree limbs to be processed for beneficial use at Contractor's or subcontractor's site (limbs must not be burned). If the bidder wishes to grind the limbs, then buy the grinded wood chips from the city, the bidder must state their buy rate on "CITY OF JOPLIN BID RESPONSE FORM FOR GRINDING OF TREE DEBRIS," page 8 of 15 of the RFP. The Bid Bond should be 5% of the total sum price charged for the service. So, the total sum should be the difference

of the price charged for grinding the limbs and the price paid for buying the wood chips.

Respectfully Submitted,

David Hertzberg P.E.
